As per the Board resolution of EMRA dated 17/03/2022, the installation of a SPP with an installed power of 16.9494 MWm was approved as an auxiliary resource within the scope of amending Söke WPP's license in line with the transformation of Söke WPP Project into a multi-resource electricity generation facility. Necessary work continues for the entire facility to be commissioned in 2022. With the commissioning of the facility, the total installed power of Söke WPP will increase from 49.5 MWm to 66.4494 MWm.

With the commissioning of auxiliary resources of Uşak, Yalova and Söke, our total installed power will increase by 11.6%, from 1,020 MW to 1,138 MW.

This statement has been translated into English for informational purposes. In case of a discrepancy between the Turkish and the English versions of this disclosure statement, the Turkish version shall prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
