Announcement Content	
Explanations	

Within the scope of the Volatility Based Measures System (VBMS) that is being implemented in accordance with Capital Market Board's decision VAKKO.E shares will be traded with the method of single price from 23/03/2021 (beginning of the session) until 06/04/2021 (end of the session).

Note: In case there are already measures of prohibition of short selling and margin trading and/or gross settlement taken under VBMS on related shares, these measures will also continue until the end of the method of single price.

Measures taken under VBMS should be evaluated separately from the prohibition of short selling and margin trading and gross settlement that is applied as a consequence of subsegment change and the like. Market maker activity is not performed on shares that were traded with the method of continuous trading with a market maker during the period when single price method is applied due to the measure.

Pursuant to the CMB's decision dated 11/02/2021, short selling is prohibited in the Equity Market of Borsa İstanbul A.Ş. (Except BIST-50 shares) until further notice.
