Announcement Content	
Explanations	

Within the scope of operational efficiency and integration studies, it was decided to move the cake production in the Esenyurt facility to the area allocated for expansion projects in the Gebze facility within the strategy of increasing quality, efficiency and competitive advantage in cake production, and to sell the Esenyurt facility building together with its land. Our employees working in the Esenyurt facility will be recruited in our other production facilities. For the continuity of production, the relocation process will be implemented by the end of 2021. Ülker Bisküvi will continue its cake business with the same capacity and growth target, and will continue to add value to both its stakeholders and its country with its innovative products, exports, employment and investments.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
