NOTE 2 - BASIS OF PRESENTATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of presentation

2.1.1 Basis of preparation and presentation of financial statements

The interim condensed consolidated financial statements are prepared in accordance with Communiqué Serial II, No:14.1, “Principles of Financial Reporting in Capital Markets” (the Communiqué) published in the Official Gazette numbered 28676 on 13 June 2013 and interim condensed consolidated financial statements are prepared in accordance with the Turkish Accounting Standards (“TAS”) issued by Public Oversight Accounting and Auditing Standards Authority (“POAASA”) according to Article 5 of the Communiqué. TAS contains Turkish Accounting Standards, Turkish Financial Reporting Standards (“TFRS”) and its addendum and interpretations.

The condensed consolidated financial statements are based on the statutory financial statements of the Group’s subsidiaries and presented in Turkish Lira in accordance with the CMB financial reporting standards with certain adjustments and reclassifications for the purpose of fair presentation. Such adjustments are primarily related to application of consolidation accounting, accounting for deferred taxes on temporary differences, accounting for employment termination benefits on an actuarial basis and accruals for various expenses. Except for the financial assets carried from their fair values and assets and liabilities, financial statements are prepared on historical cost basis.

STATEMENTS (Continued)**

2.1 Basis of presentation (Continued)

In accordance with the CMB’s “Communiqué on Financial Reporting in Capital Market” Numbered II-14.1 (Communiqué), promulgated in the Official Gazette numbered 28676 dated June 13, 2013, effective from interim periods beginning after June 30, 2013, listed companies required to prepare their financial statements in conformity with Turkey Accounting / Financial Reporting Standards (TAS / TFRS) as prescribed in the CMB Communiqué. The financial statements and explanatory notes are presented using the compulsory standard formats as published by the Communiqué.

In the scope of the CMB’s “Communiqué on Financial Reporting in Capital Market” Numbered II-14.1 (Communiqué), the Group has prepared condensed consolidated interim financial statements in accordance with TAS 34 “Interim Financial Reporting”. The financial statements and explanatory notes are presented using the compulsory standard formats as published by the Communiqué.

In accordance with the TAS, the entities are allowed to prepare a complete set of interim financial statements in accordance with TAS 34, “Interim Financial Reporting”. In this respect the Group has preferred to prepare condensed consolidated financial statements in the interim periods and prepared the aforementioned condensed consolidated financial statements in compliance with CMB Financial Reporting Standards.

Furthermore in accordance with the Communiqué and announcements regarding the explanations of the Communiqué, guarantee pledge, mortgage table, foreign currency position table, total export and total import amounts and hedging amount of total foreign currency liabilities are presented in the condensed consolidated financial statements disclosures (Note 10, 22).

2.1.2 Changes in the accounting policies, estimates and errors

Significant changes in accounting policies and accounting errors are applied retrospectively and prior period financial statements are restated. The effect of changes in accounting estimates affecting the current period is recognised in the current period; the effect of changes in accounting estimates affecting current and future periods is recognised in the current and future periods.

2.1.3 Functional and reporting currency

Items included in the financial statements of each of the Group’s entities are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The consolidated financial statements are presented in TRL, which is the functional currency of Migros Ticaret A.Ş. and the reporting currency of the Group.

2.1 Basis of presentation (Continued)

2.1.4 Going concern

In accordance with the continuity principle of the business, the consolidated financial tables are prepared based on the assumption that the Group will benefit from its assets and pay off its liabilities within next year. As of 30 June 2020, the company’s equity is TRL 52,532. The main reason of the decrease in equity is due to the foreign exchange differences arising from the foreign exchange denominated loans, however, the re-payment of the foreign exchange loans will start in 2022. According to the calculations as of the balance sheet date, despite of the decline in the equity’s capacity to cover the share capital and its reserves, if the unrealized foreign exchange loss of TRL 1,038,113 is excluded from the assessment (based on the communiqué of the Application of Turkish Commercial Code 6102/Article 376, Temporary Clause 1), no decline is expected in the equity coverage as of the end of the year. The Company preserves its ability to generate strong operating cash flows

Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet
- Income and expenses for each statement of profit or loss and statement of comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions),
- All resulting exchange differences are recognised in other comprehensive income.

2.2 New and Revised Turkish Accounting Standards

a) Amendments that are mandatorily effective from 2020

Amendments to TFRS 16 *COVID-19 Related Rent Concessions*

The changes in COVID-19 Related Rent Concessions (Amendment to TFRS 16) brings practical expedient which allows a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification. The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021 (a rent concession would meet this condition if it results in reduced lease payments on or before 30 June 2021 and increased lease payments that extend beyond 30 June 2021); and
- there are no substantive changes to other terms and conditions of the lease.

b) New and revised TFRSs in issue but not yet effective (cont’d)

TFRS 17 Insurance Contracts

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 supersedes TFRS 4 Insurance Contracts as of 1 January 2021.

Amendments to TAS 1 Classification of Liabilities as Current or Non-Current

The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.

Amendments to TAS 1 are effective for annual reporting periods beginning on or after 1 January 2022 and earlier application is permitted.

Amendments to TFRS 3 Reference to the Conceptual Framework

The amendments update an outdated reference to the Conceptual Framework in IFRS 3 without significantly changing the requirements in the standard.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted if an entity also applies all other updated references (published together with the updated *Conceptual Framework*) at the same time or earlier.

Amendments to TAS 16 Proceeds before Intended Use

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

b) New and revised TFRSs in issue but not yet effective (cont’d)

Amendments to TAS 37 *Onerous Contracts – Cost of Fulfilling a Contract*

The amendments specify that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.

The amendments published today are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

Annual Improvements to TFRS Standards 2018-2020 Cycle

Amendments to TFRS 1 *First time adoption of International Financial Reporting Standards*

The amendment permits a subsidiary that applies paragraph D16(a) of TFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent’s date of transition to TFRSs.

Amendments to TFRS 9 *Financial Instruments*

The amendment clarifies which fees an entity includes in assessing whether to derecognize a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf.

Amendments to TAS 41 *Agriculture*

The amendment removes the requirement in paragraph 22 of TAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in TFRS 13.

The amendments to TFRS 1, TFRS 9, and TAS 41 are all effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

Critical accounting estimates and assumptions

Godwill impairment test

The Group performs impairment tests on goodwill annually at 31 December. The recoverable amount of the cash generating unit has been determined based on the fair value less costs to sell calculations. Those calculations are based on discounted net cash flow after tax projections which are based on the Group’s eight-year business plans. Those projections are calculated in terms of TL and the growth rate expected to be realized after ten years is assumed to be nil. The discount rate in the value-in-use calculations is used as 9% per annum for a fixed-price plan study (2019: 9%). The discount rate in the value-in-use calculations is after tax discount rate, and includes the Group’s specific risk factors as well.

NOTE 3 - SEGMENT REPORTING

Management determines the operating segments based on the reports analyzed and found effective in strategic decision making by the Board of Directors.

Management assesses the Group’s performance on a geographic level as Turkey and other countries since the gross sales of these subsidiaries are below 10% of the Group sales. Reportable operating segment revenue comprises primarily retail sales, rent income and wholesales. Rent income and wholesale revenues are not recognized as reportable segments as they are not stated in detail in the reports provided to the board of directors. The board of directors assesses the performance of the operating segments based on a measure of Earning Before Interest, Tax, Depreciation and Amortisation, “EBITDA” and Earning Before Interest, Tax, Depreciation, Amortisation and Rent, “EBITDAR”. The Group calculates the EBITDA by deducting general administrative expenses and selling, marketing and distribution expenses and adding depreciation expenses, unused vacation liability paid in current period, employee termination benefit provision expense, unused vacation liability expense on gross profit amount in consolidated statements of income.

The segment information provided to the board of directors as of 30 June 2020 and 2019 is as follows:

NOTE 11 - PROVISION FOR EMPLOYEE BENEFITS (cont’d)

Provision for employee termination benefits

Under the Turkish Labour Law, the Company is required to pay termination benefits to each employee who has completed one year of service and who reaches the retirement age, whose employment is terminated without due cause, is enlisted for military service or passed away. The termination benefit to be paid is one month wage per a service year up to the maximum employment termination benefit limit.

In the condensed consolidated financial statements as of 30 June 2020 and consolidated financial statements as of 31 December 2019, the Group reflected a liability calculated using the projected unit credit method and based upon factors derived using their experience of personnel terminating their services and being eligible to receive retirement pay and discounted by using the current market yield at the balance sheet date on government bonds.

The principal assumption is that the maximum liability for each year of service will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. As the maximum liability is revised once every six months, the maximum amount of TRL 7,117.17 effective from 1 July 2020 has been taken into consideration in calculating the reserve for employment termination benefit of the Group.

General Information

The Group is subject to taxation in accordance with the tax regulations and the legislation effective in the countries in which the Group companies operate. In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

In Turkey, corporate tax rate is 22% (December 31, 2019 - 22%). In accordance with the regulation numbered 7061, published in Official Gazette on 5 December 2017, corporate tax rate for the years 2019 and 2020 has increased from 20% to 22%. Therefore, deferred tax assets and liabilities as of 30 June 2020 are calculated with 22% tax rate for the temporary differences which will be realized in 2019 and 2020, and with 20% tax for those which will be realized after 2021 and onwards.

The Group calculates deferred income tax assets and liabilities based on the temporary difference between the financial statements prepared in accordance with TFRS and the financial statements prepared in accordance with TFRS. Future periods to deferred tax assets and liabilities are calculated based on the liability method on temporary differences for the rates used as of June 30, 2020 for Turkey, Kazakhstan, Bulgaria and Macedonia 22% - 20%, 20%, 10% and 10% (2019: 22% , 20%, 20% and 10%).

The details of taxation on income for the periods ended 2020 and 2019 are as follows:

c) Key management compensation

The Group has determined key management personnel as chairman, members of Board of Directors, general manager and vice general managers.

Total compensation provided to key management personnel by Group for the period ended 30 June 2020 and 2019 is as follows:

	1 January - 30 June 2020	1 April - 30 June 2020	1 January - 30 June 2019	1 April - 30 June 2019
Short term benefits	28,580	16,020	21,970	10,081
	28,580	16,020	21,970	10,081

Key management compensation paid or payable consists of benefits, salaries, premiums, individual pension premiums, vehicle rents and SSI and employer shares.

NOTE 21 - EARNINGS/(LOSSES) PER SHARE

Basic earnings / (losses) per share is calculated by dividing net income / (loss) for the period by the weighted average number of ordinary shares outstanding during the related period.

	1 January - 30 June 2020	1 April - 30 June 2020	1 January - 30 June 2019	1 April - 30 June 2019
Net profit/(loss) attributable to shareholders	(290,700)	(154,405)	(381,359)	(150,505)
Weighted average number of shares Kr1 face value each ('000)	18,105,233	18,105,233	18,105,233	18,105,233
Earnings per share	(1.61)	(0.85)	(2.11)	(0.83)

There is no difference between basic and diluted earnings per share for any of the periods.

NOTE 22 - EXCHANGE RATE RISK AND FOREIGN CURRENCY POSITION

The Group is exposed to foreign exchange risk primarily arising from the borrowings denominated in foreign currencies. Aforementioned foreign exchange risk is monitored and limited with derivative instruments. At 30 June 2020, if Euro had appreciated against TRL by 20% and all other variables had remained constant, the profit for the period before tax as a result of foreign exchange rate difference arising out of assets and liabilities denominated in Euro would have been less in the amount of TRL 176,365.

NOTE 23 - FINANCIAL INSTRUMENTS

Fair value estimation

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists.

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

NOTE 24 – IMPORTANT DEVELOPMENTS RELATED TO THE CURRENT PERIOD

The COVID-19 pandemic affecting the whole world had also some impacts over the Group’s financial tables. The curfew orders applied in the crowded cities during the months April and May, the work hours restrictions for the stores located in shopping malls including some other stores, and the decrease of the customer traffic negatively impacted the revenues of these stores. On the other hand, the increase in the customers’ home consumption habits, especially the increasing demand for online sales, positively contributed to the total revenue of the Group. However, the need for additional staff hiring to cover the growing consumer demands and the additional expenses related with hygiene, cleaning and other prevention measures against the spread of the pandemic increased the operating expenses.

The Shopping Mall Operation, which is another business branch of our company, also recorded a significant amount of profitability loss. Since there is still not enough information about the middle and long term ramifications of COVID-19, a healthier and more accurate impairment assessment for the real estate values will be able to be conducted in the coming periods.

It can be concluded that the pandemic process did not negatively impact our Group’s first six months financial results as of 30 June 2020.

NOTE 25 - SUBSEQUENT EVENTS

In July, a board resolution was taken in order to sell the company’s property Derince and the Company’s stake in Ankamall shopping mall in exchange of TRL 260 million. The deed transfer of Derince was completed whereas the transfer of the Company’s stake in Ankamall is in process.
