4.2. Notification Methods

Ethics Hotline, operated by independent service providers 7 days a week and 24 hours a day, is the main reporting method to report a Disclosable Matter.

Ethics Hotline can be reached by:

- Calling a national and free telephone number;³
- A web-based reporting system via [koc.com.tr/hotline](https://www.koc.com.tr/hotline).
(Also accessible via Hotline tab in <https://www.tupras.com.tr/en/default>)

In addition to the channels above, Whistleblowers can use the alternative methods below to raise their concerns:

- He/She may reach out to his/her Line Manager or supervisor if he/she is an employee of Tüpraş at the time of complaint.
- He/She may communicate his/her concern to the Internal Audit Department or the officer or department in charge of compliance in Tüpraş.⁴

If an employee or manager (including the members of the Board of Directors) becomes aware of a Disclosable Matters directly, and/or if someone else informs him/her about a Disclosable Matter , he/she is expected to report the situation to Tüpraş Risk Management and Audit Department, or to Tüpraş Legal and Compliance Department in case of Private Law violations to ensure that the report is processed according to this Policy, and all information is consolidated as soon as possible.

³ Please refer to “koc.com.tr/hotline” for telephone numbers, covered countries and service languages.

⁴ If a Report is sent to the internal audit department or officer or department in charge of compliance in Tüpraş, it must be ensured that the notifications are recorded in Global Incident Dashboard

4.3. Global Incident Dashboard

Regardless of the Notification method used, all Notifications are consolidated at the Global Incident Dashboard (“**Dashboard**”) by the Dashboard Users (defined below). The data in the Global Report Tracking System reported by whistleblower cannot be changed or deleted by the users. Dashboard Users can study, arrange and/or monitor these reports. Moreover, the Dashboard automatically consolidates the reports by using the information below, and prepares it for pre-assessment:

- Notification date and time,
- Whistleblower information (*if available*),
- Related Koç Group company name, location, department and employee,
- Incident date, time and area,
- Detailed explanation provided by the Whistleblower

To ensure confidentiality, and protect the Whistleblowers, except for the cases specifically regulated in the Koç Group Whistleblowing Policy, access to the Dashboard is provided only to authorized personnel working at Tüpraş Risk Management and Audit Department and Tüpraş Legal and Compliance Department (“**Dashboard Users**”). Dashboard Users perform an independent duty, and the reports must be examined by persons who would not lead to conflict of interest.

Tüpraş Legal and Compliance Department shall periodically analyze the data (e.g. the type and frequency of the incidents, the departments which are regularly reported, etc.) in the Dashboard and work with the relevant departments to ensure that necessary action is taken to address the relevant compliance risks and improve compliance deficiencies.

Tüpraş Legal and Compliance Department reports the procedures carried out and the activities performed in this scope including the disciplinary board decisions to Board of Directors and Koç Holding Legal and Compliance Department every six months.

4.4. Confidentiality, Anonymity and Integrity

Tüpraş respects Whistleblower’s preference to remain anonymous. In this scope, any information reported through Ethics Hotline and other alternative channels are kept confidential to the extent permitted by the laws.⁵

Accordingly, to the extent permitted by laws, the details of a Notification and all other information gathered during an Investigation shall be shared with persons who are authorized to (i) investigate, (ii) evaluate the subject, and (iii) take action if his/her name is not mentioned in the notification. For the avoidance of doubt, any person whose name is mentioned in a Notification, shall not be authorized to have access or be involved in the assessment or Investigation process.

Confidentiality of the investigation is essential, and the department conducting the investigation is not obligated to give information about the process and result of the investigation to the Whistleblowers.

⁵ See “4.2 Whistleblowing Methods” for alternative whistleblowing channels.

All individuals who provide information during an Investigation also have an obligation to keep the information they provided or any information they may learn during the Investigation. Likewise, it is obliged to protect and respect the existence of the Investigation, its confidentiality, and individuals involved in the process.

A Whistleblower has the following options while reporting an incident:

- i. Not share his/her name and contact information to remain anonymous,
- ii. Share his/her name and contact information and allow the notification of this information only to the authorized persons. In this case, the relevant authorized employees can contact the Whistleblower directly to request any information that is needed during an Investigation.

4.5. Zero Tolerance to Retaliation

Tüpraş encourages individuals to easily report their concerns and supports them. It is crucial that an employee who submits a Notification should feel comfortable and safe and should not worry that their professional life will be adversely affected as long as he/she acts honestly and in good faith. Therefore, the employment contract of an employee who reports an incident without remaining anonymous cannot be terminated with or without cause, he/she cannot be suspended, dismissed, forced to take paid or unpaid leave, or his position cannot be changed, or a similar action cannot be taken. Tüpraş does not tolerate any Retaliation to Whistleblower under any circumstances. Retaliations are considered an explicit violation of this Policy and are subject to Disciplinary Penalty.⁶

Tüpraş protects the Whistleblowers even if accuracy of the incident could not be proved by an Investigation, so long as the Notification is made in good faith, with reasonable grounds and without an intent to victimize or create disadvantages to others or gain a personal advantage. However, those who deliberately make false Notifications may be subject to Disciplinary Penalties. Therefore, it is extremely important that the Notifications are based on observations and can be proved, if possible.

4.6. Investigation Process

All reports communicated through the Hotline and other alternative channels are evaluated by Tüpraş Risk Management and Audit Department and/or Dashboard Users comprised of Tüpraş Legal and Compliance Department compliance officers according to their subjects. The purpose of the evaluation is to verify the Notification's subject and determine whether the information provided is reliable.

As regulated in Koç Group Whistleblowing Policy, as a result of the pre-assessment, if the relevant subject is a subject within the authority of Tüpraş, Tüpraş Dashboard User shall be authorized to investigate the subject in depth, in other words, to decide whether an Investigation should be started or the case should be closed. If there is a need to conduct an Investigation, then Tüpraş conducts the investigation in line with its internal procedures. If the relevant matter is not within the jurisdiction of Tüpraş, it is acted upon in accordance with the Koç Group Whistleblowing Policy.

⁶ Please refer to Tüpraş Disciplinary Policy for details.

Information which the Whistleblower has obtained through illegal methods, if any, shall not be taken into consideration during the Investigation process.

Except for the cases specifically regulated in the Koç Group Whistleblowing Policy, if the Investigation, is being conducted by the authorized functions at Tüpraş, the units responsible for the Investigation in the first degree shall inform the other relevant department(s) before concluding the Investigation and issuing the final report and receives their recommendation (if any). The relevant department shall share its recommendations as soon as possible and in any event without causing any delay in the process.

If it is deemed necessary for the soundness and efficiency of the Investigation, the employees subject to the Notification may be suspended or dismissed from work temporarily. If the Investigation is conducted by the authorized functions at Tüpraş, the opinion of Tüpraş Risk Management and Audit Department and Tüpraş Chief Legal and Compliance Officer and the approval of the General Manager is required for such a decision.

In Investigations conducted within Tüpraş, if there are valid reasons that could affect neutrality and independent decision-making in case of the existence of a hierarchical or functional conflict of interest, and/or if the name of the authorized department is mentioned in the Notification, or if it is necessary to conduct a comprehensive examination, or if the investigation is carried out at a location different from the country where Tüpraş headquarters are located (e.g need for fast and efficient investigations, special expertise, linguistic barriers etc.), the Investigations can be carried out by independent third party service providers. In such a circumstance, the decision to outsource the case to third parties is subject to the approval of Koç Holding Internal Audit Department (depending on the Subject of the Disclosable Matter) or Koç Holding Legal and Compliance Department (if there is a Private Law Violation).

If there is a recommendation for a Disciplinary Penalty as a result of the Investigation, the relevant matter shall be brought to the attention of the Tüpraş HR Directorate or Tüpraş Ethics/Discipline Committee depending on the nature of the incident and the person subject to the Investigation.

4.7.Expectations from the Whistleblowers

In order to ensure that “Disclosure Matter” is well understood clearly and can be evaluated properly and fairly, the Whistleblower is expected to provide sufficient and detailed information as possible. Therefore, Notification to be made by Whistleblowers must contain the answers to the questions below as much as possible:

- Names of the suspect(s),
- Detailed information about the subject;
 - o When/where/among whom did the incident take place?

- Is there any evidence about the notified concern?
