## (CONVENIENCE TRANSLATION OF INDEPENDENT AUDITOR'S REPORT ORIGINALLY ISSUED IN TURKISH)

## **INDEPENDENT AUDITOR'S REPORT**

To the General Assembly of Coca-Cola İçecek A.Ş.

## A) Report on the Audit of the Consolidated Financial Statements

## 1) Opinion

We have audited the consolidated financial statements of Coca-Cola İçecek A.Ş. ("the Company") and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss, consolidated statement of other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Turkish Financial Reporting Standards ("TFRS").

## 2) Basis for Opinion

We conducted our audit in accordance with the standards on auditing issued by Capital Markets Board and the Standards on Independent Auditing ("SIA") which is a part of Turkish Auditing Standards published by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the *Code of Ethics for Independent Auditors* ("Code of Ethics") published by the POA, together with the ethical requirements that are relevant to our audit of the consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. ## 3) Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## 4) Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with TFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

## 5) Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Responsibilities of independent auditors in an independent audit are as follows:

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the standards on auditing issued by Capital Markets Board and SIA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the standards on auditing issued by Capital Markets Board and SIA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. (The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.)
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## B) Report on Other Legal and Regulatory Requirements

In accordance with paragraph four of the Article 398 of the Turkish Commercial Code No. 6102 ("TCC"), the auditor's report on the system and the committee of early detection of risk has been submitted to the Board of Directors of the Company on 24 February 2021.

In accordance with paragraph four of the Article 402 of TCC, nothing has come to our attention that may cause us to believe that the Group's set of accounts and financial statements prepared for the period 1 January - 31 December 2020 does not comply with TCC and the provisions of the Company's articles of association in relation to financial reporting.

In accordance with paragraph four of the Article 402 of TCC, the Board of Directors provided us all the required information and documentation with respect to our audit.

The engagement partner on the audit resulting in this independent auditor's report is Yaman Polat.

The Group has exclusive rights to produce, sell and distribute TCCC branded beverages including Coca-Cola, Coca-Cola Zero, Coca-Cola Zero Sugar, Coca-Cola Light, Fanta, Sprite, Cappy, Sen Sun, Powerade and Fuse Tea in TCCC authorized packages throughout Turkey provided by Bottler's and Distribution Agreements signed between the Group with TCCEC and TCCC. Renewal periods of the signed Bottler's and Distribution Agreements varies until 2028.

The Group has exclusive rights to produce, sell and distribute Burn and Gladiator branded energy drinks in authorized packages throughout Turkey, according to the Bottlers Agreements signed between the Group and Monster Energy Company ("MEC") and has the right for selling and distribution of Monster branded products in accordance with the International Distribution Agreement signed with Monster Energy Limited ("MEL") which has taken over TCCC's global energy drink portfolio and is partially owned by TCCC as well.

According to the Sales and Distribution Agreement signed with Doğadan Gıda Ürünleri Sanayi ve Pazarlama A.Ş. ("Doğadan"), a subsidiary of TCCC, it's approved that sales and distribution of Doğadan products will be realized by CCSD throughout Turkey starting from September 2008. An agreement has been reached between TCCC and CCI to revisit the sales and distribution model of Doğadan brand, the non-ready to drink tea in CCI's portfolio. According to the agreement, our Company's sales and distribution activities of Doğadan brand in Turkey has terminated as of April 30, 2020 (Note 35).

The Group's international subsidiaries and joint ventures operating outside of Turkey are also engaged in the production, sales and distribution of sparkling and still beverages with TCCC trademarks.

#### Economic Conditions and Risk Factors of Subsidiaries and Joint Ventures

The countries, in which certain subsidiaries and joint ventures operate, have undergone substantial political and economic changes in recent years. Uncertainties regarding the political, legal, tax and/or regulatory environment, including the potential for adverse changes in any of these factors, could significantly affect the subsidiaries' and joint ventures ability to operate commercially. Group Management closely monitors uncertainties and adverse changes to minimize the probable effects of such changes.

In this context, Risk Detection Committee; which was established under the arrangements, terms and principles of Turkish Commercial Code, Capital Market Legislation and CMB's "Corporate Governance Principles" assess, manage and report Group risks. Some of the Group priority risks are defined as political instability and security, cyber security, exchange rate volatility, sustainable talent capability, corporate reputation, water and environmental impact of packaging, changing consumer preferences, discriminatory tax and regulations, channel mix shift, economic slowdown, law and order and industrial relations. Group does not expect any adverse effect on the business related to any significant regulatory changes and/or legal arrangements by the authorities. All compliance efforts are in place and there is no legal dispute that may adversely affect the business.

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION

## Basis of Preparation

#### Statement of Compliance of TFRS

The consolidated financial statements and disclosures have been prepared in accordance with the communiqué numbered II-14,1 "Communiqué on the Principles of Financial Reporting in Capital Markets" ("the Communiqué") announced by the CMB (hereinafter will be referred to as "the CMB Accounting Standards") on June 13, 2013 which is published on Official Gazette numbered 28676.

In addition, the consolidated financial statements are presented in accordance with the specified format in "TFRS Taxonomy Announcement", issued on 15 April 2019 by the POA, and "the Financial Statements Examples and Guidelines for Use", which is published by the Capital Markets Board of Turkey.

CCI and its subsidiaries that are incorporated in Turkey maintain their books of account and prepare their statutory financial statements in Turkish Lira ("TL") in accordance with the regulations on accounting and reporting framework and accounting standards promulgated by the CMB, Turkish Commercial Code ("TCC") and Tax Legislation and the Uniform Chart of Accounts which is issued by the Ministry of Finance. The subsidiaries incorporated outside of Turkey maintain their books of account and prepare their statutory financial statements in accordance with the regulations of the countries in which they operate.

The consolidated financial statements have been prepared from the statutory financial statements of Group's subsidiaries' and joint ventures and presented in TL in accordance with CMB Accounting Standards with certain adjustments and reclassifications for the purpose of fair presentation. Such adjustments are primarily related to application of consolidation accounting, accounting for business combinations, accounting for deferred taxes on temporary differences, accounting for employee termination benefits on an actuarial basis and accruals for various expenses. Except for the financial assets carried from their fair values and assets and liabilities included in Business Combination application, consolidated financial statements are prepared on a historical cost basis.

#### Impact of COVID-19 Outbreak on Group's Operations

Group has been implementing several contingency plans to mitigate the potential negative impacts of COVID 19 on the Group's operations and financial statements. It has been some partial hitches in sales process due to curfews and due to closure of some sales channels in countries that Group operates in parallel with the effects on global markets in terms of macro-economic uncertainty. Meanwhile Group has taken series of actions to minimize capital expenditures and increase in inventory and has reviewed current cash flow strategies to maintain strong balance sheet and liquidity figures. Lifting of curfews and decreasing in restrictions regarding to pandemic has positive effect on both market demand and Group's operations.

Group management has evaluated the potential effects of Covid-19 and has reviewed the key assumptions concerning the future and other key sources of estimation uncertainty on the financial statements as of December 31, 2020. In this concept, Group has performed impairment test for financial assets, inventories, property, plant and equipment, goodwill and bottling rights and has not recognized any impairment loss as of December 31, 2020.

Risk management policies, level and nature of risks arising from Group's financial instruments are presented separately in Note 39 Nature and Level of Risks Arising from Financial Instruments.

## New and Amended Turkish Financial Reporting Standards

#### a) Amendments that are mandatorily effective from 2020

| Amendments to TFRS 3                    | Definition of a Business   |
|---|--|
| Amendments to TAS 1 and TAS 8           | Definition of Material   |

| Amendments to TFRS 16                   | COVID-19 Related Rent Concessions                                |
| Amendments to Conceptual Framework      | Amendments to References to the Conceptual<br>Framework in TFRSs |

## Amendments to TFRS 3 Definition of a Business

The definition of "business" is important because the accounting for the acquisition of an activity and asset group varies depending on whether the group is a business or only an asset group. The definition of "business" in TFRS 3 Business Combinations standard has been amended. With this change:

- By confirming that a business should include inputs and a process; clarified that the process should be essential and that the process and inputs should contribute significantly to the creation of outputs.
- The definition of a business has been simplified by focusing on the definition of goods and services offered to customers and other income from ordinary activities.
- An optional test has been added to facilitate the process of deciding whether a company acquired a business or a group of assets.

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

## Amendments to TAS 1 and TAS 8 Definition of Material

The amendments in Definition of Material (Amendments to TAS 1 and TAS 8) clarify the definition of 'material' and align the definition used in the Conceptual Framework and the standards.

#### Amendments to TFRS 9, TAS 39 and TFRS 7 Interest Rate Benchmark Reform

The amendments clarify that entities would continue to apply certain hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows from the hedging instrument are based will not be altered as a result of interest rate benchmark reform.

## Amendments to TFRS 16 COVID-19 Related Rent Concessions

The changes in COVID-19 Related Rent Concessions (Amendment to TFRS 16) brings practical expedient which allows a lessee to elect not to assess whether a COVID-19-related rent concession is a lease modification. The practical expedient applies only to rent concessions occurring as a direct consequence of COVID-19 and only if all of the following conditions are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2021 (a rent
  concession would meet this condition if it results in reduced lease payments on or before 30 June 2021
  and increased lease payments that extend beyond 30 June 2021); and
- there are no substantive changes to other terms and conditions of the lease.

The amendment is effective for annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted. There were no COVID-19-related rent concessions of the Group.

#### Amendments to References to the Conceptual Framework in TFRSs

The references to the Conceptual Framework revised the related paragraphs in TFRS 2, TFRS 3, TFRS 6, TFRS 14, TAS 1, TAS 8, TAS 34, TAS 37, TAS 38, TFRS Interpretation 12, TFRS Interpretation 19, TFRS Interpretation 20, TFRS Interpretation 22, and SIC-32. The amendments, where they actually are updates, are effective for annual periods beginning on or after 1 January 2020, with early application permitted.

## b) New and revised TFRSs in issue but not yet effective

The Group has not yet adopted the following standards and amendments and interpretations to the existing standards:

#### TFRS 17 Insurance Contracts

TFRS 17 requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. TFRS 17 supersedes TFRS 4 Insurance Contracts as of 1 January 2023.

## Amendments to TAS 1 Classification of Liabilities as Current or Non-Current

The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current.

Amendment defers the effective date by one year. Amendments to TAS 1 are effective for annual reporting periods beginning on or after 1 January 2023 and earlier application is permitted.

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

#### Amendments to TFRS 3 Reference to the Conceptual Framework

The amendments update an outdated reference to the Conceptual Framework in TFRS 3 without significantly changing the requirements in the standard.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted if an entity also applies all other updated references (published together with the updated *Conceptual Framework*) at the same time or earlier.

#### Amendments to TAS 16 Proceeds before Intended Use

The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the cost of producing those items, in profit or loss.

The amendments are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

#### Amendments to TAS 37 Onerous Contracts - Cost of Fulfilling a Contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.

The amendments published today are effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

#### Annual Improvements to TFRS Standards 2018-2020 Cycle

Amendments to TFRS 1 First time adoption of International Financial Reporting Standards

The amendment permits a subsidiary that applies paragraph D16(a) of TFRS 1 to measure cumulative translation differences using the amounts reported by its parent, based on the parent's date of transition to TFRSs.

#### Amendments to TFRS 9 Financial Instruments

The amendment clarifies which fees an entity includes in assessing whether to derecognize a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf.

#### Amendments to TAS 41 Agriculture

The amendment removes the requirement in paragraph 22 of TAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique. This will ensure consistency with the requirements in TFRS 13.

The amendments to TFRS 1, TFRS 9, and TAS 41 are all effective for annual periods beginning on or after 1 January 2022. Early application is permitted.

## Amendments to TFRS 4 Extension of the Temporary Exemption from Applying IFRS 9

The amendment changes the fixed expiry date for the temporary exemption in TFRS 4 Insurance Contracts from applying TFRS 9 Financial Instruments, so that entities would be required to apply TFRS 9 for annual periods beginning on or after 1 January 2023.

## Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 Interest Rate Benchmark Reform — Phase 2

The amendments in Interest Rate Benchmark Reform — Phase 2 (Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16) introduce a practical expedient for modifications required by the reform, clarify that hedge accounting is not discontinued solely because of the IBOR reform, and introduce disclosures that allow users to understand the nature and extent of risks arising from the IBOR reform to which the entity is exposed to and how the entity manages those risks as well as the entity's progress in transitioning from IBORs to alternative benchmark rates, and how the entity is managing this transition.

The amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 are all effective for annual periods beginning on or after 1 January 2021. Early application is permitted.

## **Functional and Presentation Currency**

The majority of the consolidated foreign subsidiaries and joint venture are regarded as foreign operations since they are financially, economically and organizationally autonomous. In accordance with "TAS 21 The Effects of Changes in Foreign Exchange Rates", there has been a change in the functional currency of the foreign subsidiaries and joint venture from US Dollars ("USD") to the foreign subsidiaries' and joint ventures' local currencies effective from January 1, 2017. This was done considering the multinational structure of foreign operations and realization of most of their operations, by assessing the currency of the primary economic environment of foreign operations, the currency that influences sales prices for goods and services, the currency in which receipts from operating activities are usually retained and the currency that mainly influences costs and other expenses for providing goods and services. The group has applied the change in functional currency prospectively, in accordance with the requirements of TFRS and the relevant Accounting Standards. All assets and liabilities are converted into the new functional currency using the exchange rate at the date of the change. The resulting translated amounts for non-monetary items are treated as their historical cost.

Functional and presentation currency of the Group is Turkish Lira (TL).

## Foreign Currency Translations

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are recorded in the consolidated income statement of the relevant period, as foreign currency loss or gain. Foreign currency translation rates announced by the Central Bank of the Republic of Turkey used by the Group's subsidiaries in Turkey. USD amounts presented in the balance sheet are translated into TL with the official TL exchange rate for purchases of USD on December 31, 2020, USD 1,00 (full) = TL 7,3405 (December 31, 2019; USD 1,00 (full) = TL 5,9402). Furthermore, USD amounts in the income statement have been translated into TL, at the average TL exchange rate for purchases of USD for the period is USD 1,00 (full) = TL 7,0034 (January 1 - December 31, 2019; USD 1,00 (full) = TL 5,6712).

The assets and liabilities of subsidiaries and joint ventures operating in foreign countries are translated at the rate of exchange ruling at the balance sheet date and the income statements of foreign subsidiaries and joint ventures are translated at average exchange rates. Differences that occur by the usage of closing and average exchange rates are followed under currency translation differences classified under equity.

## Offsetting

Financial assets and liabilities are offset, and the net amount is reported in the balance sheet when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

## Estimates, Assumptions and Judgements Used

The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments (apart from those involving estimations) with the most significant effect on amounts recognized in the financial statements are as follows:

- a) The Group has made significant assumptions over the useful life of buildings, machinery and equipment based on the expertise of the technical departments (Note 20).
- b) The Group reviews the carrying values of property, plant and equipment for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount. The recoverable amount (net realizable value) of property, plant and equipment is the greater of net selling price and value in use (Note 20 and Note 21).
- c) The Group performs impairment test for bottling rights with indefinite useful life and goodwill annually or when circumstances indicate that the carrying value may be impaired. As of December 31, 2020, impairment test for the intangible assets with indefinite useful life and goodwill is generated by comparing its carrying amount with the recoverable amount. The recoverable amount is determined taking the value in use calculation as basis. During these 10 years period calculations, estimated free cash flow before tax from financial budgets that were approved by board of directors are used for 3-year period. Estimated free cash flows before tax after 3-year period for the remaining 7 years are calculated by using expected growth rates. Estimated free cash flows before tax are discounted to expected present value for future cash flows. Key assumptions such as country specific market growth rates, gross domestic product per capita and consumer price indices were derived from external sources. For impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets, cash generating units (Note 21 and Note 22). For the impairment test, below assumptions were used for the year-end December 31, 2020;

|                 | Perpetuity<br>Growth Rate | Weighted Average<br>Cost of Capital |

- d) Deferred tax asset is only recorded if it is probable that a taxable income will be realized in the future. Under the circumstances that a taxable income will be realized in the future, deferred tax is calculated over the temporary differences by carrying forward the deferred tax asset in the previous years and the accumulated losses.
- e) The Group has made significant assumptions over the useful life of spare parts for machinery and equipment based on the expertise of the technical departments (Note 20). Group has made an estimation change in useful life assumption in 2020 and decreased the 20 years useful life assumption to 10 years. Impact of this assumption change was explained in Note 20.
- f) Expected credit loss is recognized by using the expected credit loss defined in TFRS 9. Expected credit losses are calculated based on Group's future estimates and experience over the past years (Note 11).
- g) The discount rates related with retirement pay liability are actuarial assumptions determined with future salary increase and the employee's turnover rates (Note 26).

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

## **Basis of Consolidation and Interests in Joint Ventures**

The consolidated financial statements comprise the financial statements of the parent company, CCI, its subsidiaries and joint ventures prepared as for the year ended December 31, 2020. Subsidiaries are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. The consolidated financial statements cover CCI and the subsidiaries it controls. This control is normally evidenced when the Group owns, either directly or indirectly, more than 50% of the voting rights of a company's share capital and is able to govern the financial and operating policies of an enterprise so as to benefit from its activities.

Subsidiaries are consolidated by using the full consolidation method; therefore, the carrying value of subsidiaries is eliminated against the related shareholders' equity. The equity and net income attributable to non-controlling interests are shown separately in the consolidated balance sheet and consolidated income statement.

TFRS 11 "Joint Arrangements" is effective for annual periods beginning on or after 1 January 2013. This standard defines joint control with a realistic view, which is the contractually agreed sharing of control of an arrangement. There are two types of joint arrangements: joint operations and joint ventures. Among other changes introduced, under this new standard, proportionate consolidation is not permitted for joint ventures. With this amendment, joint ventures were accounted for under the equity method of accounting at the consolidated financial statements, starting from January 1, 2013. Investment in joint ventures accounted for under the equity method of accounting is carried in the consolidated balance sheet at cost and adjusted thereafter for post-acquisition changes in the Group's share of net assets of the joint ventures, less any impairment in value. The consolidated income statement reflects the Group's share of the results of operations of the joint ventures.

Intercompany balances and transactions, including intercompany profits and unrealized profits and losses, are eliminated. Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

## SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances, short-term deposits with an original maturity of less than 3 months and cheques dated on or before the relevant period end which are readily convertible to known amounts of cash and subject to insignificant risk of changes in value.

## Financial assets classification and measurement

Group classified its assets in three categories, financial assets carried at amortized cost, financial assets carried at fair value though profit or loss, financial assets carried at fair value though other comprehensive income. Classification is performed in accordance with the business model determined based on purpose of benefits from financial assets and expected cash flows. Management performs the classification of financial assets at the acquisition date.

<u>a) Financial assets carried at amortized cost</u>; Assets that are held for collection of contractual cash flows where cash flows represent solely payments of principal and interest, whose payments are fixed or predetermined, which are not actively traded, and which are not derivate instruments are measured at amortized cost. They are included in current assets, except for maturities more than 12 months after the balance sheet date. Those with maturities more than 12 months are classified as non-current assets. The Group's financial assets carried at amortized cost comprise "trade receivables" and "cash and cash equivalents" in the statement of financial position. Group has applied simplified approach and used impairment matrix for the calculation of impairment on its receivables carried at amortized cost, since they do not comprise of any significant finance component (Note 11).

<u>b) Financial assets carried at fair value through other comprehensive income</u>; Financial assets carried at fair value through other comprehensive income comprise of "financial assets" in the statement of financial position. Group carried these assets at their fair values. The fair value gains and losses are recognized in other comprehensive income after the deduction of impairment losses and foreign exchange income and expenses. When the financial assets carried at fair value through other comprehensive income are sold, fair value gain or loss classified in other comprehensive income is classified to retained earnings.

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

## Derivative financial instruments

The Group engages in commodity swap and option transactions to hedge price risk arising from fluctuations in the prices of required commodity for final production. Some of the derivative transactions are determined as hedge instruments and hedge accounting is applied.

## Hedge accounting

For hedge accounting, hedges are classified as:

- Fair value hedges when hedging the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment
- Cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the effectiveness of changes in the hedging instrument's fair value in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in achieving offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they have been highly effective throughout the financial reporting periods for which they were designated.

For fair value hedges the change in the fair value of a hedging instrument is recognized in the consolidated income statement. The change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying value of the hedged item and is also recognized in the consolidated income statement as part of finance income and costs.

For cash flow hedges the effective portion of the gain or loss on the hedging instrument is recognized directly as other comprehensive income in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the statement of consolidated income as part of financial income and costs.

Amounts recognized as other comprehensive income are transferred to the statement of consolidated income when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognized or when a forecasted purchase occurs. Where the hedged item is the cost of a non-financial asset or non-financial liability, the amounts recognized as other comprehensive income are transferred to the statement of consolidated income when a sale occurs.

The Group has made aluminum swap and aluminum swap call option contracts in order to offset the possible losses that may arise from anticipated purchases of cans which are subject to aluminum price volatility and designates these aluminum swap transactions as hedging instruments for cash flow hedge relation against highly probable future outflows as the hedged item (Note 8, 39, 40).

The Group has made sugar swap contracts in order to offset the possible losses that may arise from anticipated purchases of sugar which are subject to sugar price volatility and designates these sugar swap transactions as hedging instruments for cash flow hedge relation against highly probable future outflows as the hedged item (Note 8, 39, 40).

The Group engages in cross currency swap and option transactions to hedge long term exchange rate exposure.

## Other derivatives not designated for hedge accounting

Other derivatives not designated for hedge accounting are recognized initially at fair value; attributable transaction costs are recognized in statement of consolidated income when incurred. After initial recognition, derivatives are measured at fair value, and changes in the fair value of such derivatives are recognized in the statement of consolidated income as part of finance income and costs.

## **Trade Receivables**

Trade receivables, which generally have payment terms of 15 - 65 days, are recognized at original invoice amount less expected credit loss.

## Impairment of financial assets

The Group recognizes a loss allowance for expected credit losses on investments in debt instruments that are measured at amortized cost or at fair value reflected to comprehensive income, lease receivables, trade receivables and contract assets, as well as financial guarantee contracts. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group utilizes a simplified approach for trade receivables, contract assets and lease receivables that does not have significant financing component and calculates the allowance for impairment against the lifetime expected credit loss of the related financial assets.

## Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

## **Related Parties**

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
  - (i) has control or joint control over the reporting entity;
  - (ii) has significant influence over the reporting entity; or
  - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity;
- (b) Parties are considered related to the Group if;
  - (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

## Inventories

Inventories are valued at the lower of cost or net realizable value, less provision for obsolete and slow-moving items. Net realizable value is the selling price in the ordinary course of business, less the costs of completion, marketing and distribution. Cost includes all costs incurred in bringing the product to its present location and condition, and is determined primarily based on weighted average cost method.

## Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment in value. Land is not depreciated. Depreciation is calculated on a straight-line basis over the estimated useful life of the asset as follows:

| Buildings and Leasehold Improvements | 5 - 49 years |
|--------------------------------------|--------------|
| Machinery and Equipment              | 6 - 20 years |
| Furniture and Fixtures               | 5 - 10 years |
| Vehicles                             | 5 - 10 years |
| Other Tangible Assets                | 5 - 12 years |
|                                      |              |

Useful life of leasehold improvements is determined according to contract based lease period. Useful life of the investment is equal to the contract based remaining lease period of the leased asset.

Repair and maintenance costs for tangible assets are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits with the item will flow to the Group. All other costs are charged to the statements of income during the financial year in which they are incurred. All costs incurred for the construction of property, plant and equipment are capitalized and are not depreciated until the asset is ready for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount. The recoverable amount (net realizable value) of property, plant and equipment is the greater of net selling price and value in use. Value in use is assessed by discounting future cash flows to their present value using a pre-tax discount rate that reflects current market conditions and the risks specific to the asset. If the related asset is not a unit that generates cash inflows by itself, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Impairment losses are recognized in the income statement.

The increase in the carrying value of property, plant and equipment because of the impairment reversal is recognized in the income statement, by considering not to exceed the book value amount if the impairment losses were not reflected to financial statements in prior years (net book value after depreciation).

## Intangible Assets

Intangible assets acquired separately are measured at initial acquisition cost. The cost of an intangible asset acquired in a business combination is recognized at fair value, if its fair value can be reliably measured. Intangible assets, excluding development costs, created within the business are not capitalized and expenditure is charged against profits in the year in which it is incurred. Intangible assets are amortized on a straight-line basis over the best estimate of their useful lives, except Bottlers and Distribution Agreements.

In the scope of consolidation, intangible assets identified during the acquisition and in the fair value financial statements of subsidiaries and joint venture which are operating in foreign countries, represent the "Bottlers and Distribution Agreements" that are signed with TCCC. Taking into consideration TCCC's ownership in the Group, contribution to development of long term strategic plans and business processes, and its working principles with other bottlers the Group management believes that no time constraint is required for bottling and distribution agreements as they will be extended without additional cost after expiration date. The intangible assets relating to the Bottlers and Distribution Agreements are therefore not amortized. Such intangible assets which are not amortized are annually reviewed for impairment or when events or changes in circumstances indicate that the carrying value may not be recoverable.

Water sources usage rights are amortized on a straight-line basis over their useful lives, which are between 9 and 40 years.

Other rights are amortized on a straight-line basis over their 2-15 years estimated useful lives.

The carrying values of intangible assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

#### **Business Combinations and Goodwill**

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquirer.

Acquisition method requires allocation of the acquisition cost to the assets acquired and liabilities assumed at their fair values on the date of acquisition. Accordingly, acquired assets and liabilities and contingent liabilities assumed are recognized at TFRS 3 fair values on the date of acquisition. Acquired company is consolidated starting from the date of acquisition.

If the fair values of the acquired identifiable assets, liabilities and contingent liabilities or cost of the acquisition are based on provisional assessment as at the balance sheet date, the Group made provisional accounting. Temporarily determined business combination accounting has to be completed within twelve months following the combination date and adjustment entries have to be made beginning from combination date.

Goodwill represents the excess of the cost of the acquisition over the fair value of identifiable net assets of the acquired business, at the date of acquisition. Group do not amortize goodwill arising from the business combinations and annually review for impairment.

Any goodwill arising from the acquisition of a foreign operation and fair value adjustments to the carrying amounts of assets and liabilities are treated as assets and liabilities of the acquired foreign operation. Therefore, these assets and liabilities are translated at the closing rate from their presentation currencies.

## **Financial liabilities**

Financial liabilities are classified as at FVTPL on initial recognition. On initial recognition of liabilities other than those that are recognised at FVTPL, transaction costs directly attributable to the acquisition or issuance thereof are also recognised in the fair value.

A financial liability is subsequently classified at amortized cost except:

(a) Financial liabilities at FVTPL: These liabilities including derivative instruments are subsequently measured at fair value.

(b) Financial liabilities arising if the transfer of the financial asset does not meet the conditions of derecognition from the financial statements or if the ongoing relationship approach is applied: When the Group continues to present an asset based on the ongoing relationship approach, a liability in relation to this is also recognised in the financial statements. The transferred asset and the related liability are measured to reflect the rights and liabilities that the Group continues to hold. The transferred liability is measured in the same manner as the net book value of the transferred asset.

(c)A contingent consideration recognized in the financial statements by the entity acquired in a business combination where TFRS 3 is applied: After initial recognition, the related contingent consideration is measured as at FVTPL.

The Group does not reclassify any financial liability.

## Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

#### Leases

#### The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which
  case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified, and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification

The Group did not make any such adjustments during the periods presented.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies TAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occurs and are included in 'Other expenses' in profit or loss.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Group has not used this practical expedient. For a contract that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease components.

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

## The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. The Group also rents equipment to retailers necessary for the presentation and customer fitting and testing of footwear and equipment manufactured by the Group.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

When a contract includes lease and non-lease components, the Group applies TFRS 15 to allocate the consideration under the contract to each component.

## **Trade Payables**

Trade payables which generally have 7 - 30-day terms are carried at amortized cost which is the fair value of the consideration to be paid in the future for goods and services received, when they are billed to the Group.

## **Employee Benefits**

## Turkish Entities:

## (a) Defined Benefit Plans

The reserve for employee termination benefits is provided for in accordance with TAS 19 "Employee Benefits" and is based on actuarial study. In the consolidated financial statements, the Group has reflected a liability calculated using the "Projected Unit Credit Method". According to the valuations made by qualified actuaries, all actuarial gains and losses are recognized in the income statement.

The employee termination benefits are discounted to the present value of the estimated future cash outflows using government bonds' rate of return on the balance sheet date.

The gains/loss originated from the changes in actuarial assumptions and the fluctuations between actuarial assumptions and the actual results are reflected to other comprehensive income. Actuarial assumptions used to determine net periodic pension costs are as follows as of balance sheet dates:

|                               | December 31, 2020 | December 31, 2019 |
|-------------------------------|-------------------|-------------------|
| Discount rate                 | 12,8%             | 11,7%             |
| Inflation                     | 9,5%              | 7,9%              |
| Rate of compensation increase | 9,5%              | 7,9%              |

## (b) Defined Contribution Plan

The Group pays contributions to the Social Security Institution of Turkey on a mandatory basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due. For the year ended December 31, 2020, contributions paid by the Group to the Social Security Institution of Turkey is amounting to TL 57.190 (December 31, 2019 - TL 45.763) (Note 31).

## Foreign Subsidiaries

Subsidiaries and joint ventures in foreign countries pay contributions according to each country's local regulations and these payments are expensed as incurred. Both employee and employer make payments as social security contribution calculated on employee salary and these contributions reflected to employee expense when they accrued.

|                 | Employee contribution rate | Employer contribution rate |

| CCBPL           | 1% (on minimum wage)       | 5% (on minimum wage)       |

Also, CCBPL has gratuity fund provision as a defined benefit plan and calculated in accordance with TAS 19 *"Employee Benefits"* using actuarial works. Employee is eligible for gratuity after completing 3 years with the Group and can take his accrued gratuity amount at the time of separation from the Group or at retirement age. This provision is calculated by actuarial firm and the actuarial gain/loss accumulated on this provision is reflected to financial statements the gains/loss originated from the changes in actuarial assumptions and the fluctuations between actuarial assumptions and the actual results are reflected to other comprehensive income.

## Provisions, Contingent Assets and Liabilities

Provisions are recognized when the Group has a present obligation (legal or constructive) because of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities are not recognized in the financial statements but only disclosed, unless the possibility of an outflow of resources embodying economic benefits is probable. A contingent asset is not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

## **Revenue Recognition**

## Revenue

The Group recognizes revenue in accordance with the standard which is TFRS 15 "Revenue from Contracts With Customers" based five-step model set out below:

- Identifying contract(s) with a customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognize revenue when (or as) the entity satisfies a performance obligation

## 2. BASIS OF CONSOLIDATED FINANCIAL STATEMENT PRESENTATION (continued)

The Group accounts for a contract with its customer as revenue if all the conditions of the term are met:

- The parties to the contract have approved the contract (in writing, verbally or in accordance with other commercial practices) and are committed to fulfilling their own performance obligations.
- The rights of each party related to the goods or services to be transferred can be defined.
- Payment terms for goods or services to be transferred can be defined
- The contract is inherently commercial in nature and it is probable that the Group will collect a price for goods or services to be transferred to the customer. While evaluating whether a price is likely to be collected, the Group takes into account only the customer's ability to pay this price on due date and its intention.

The Group assesses the goods or services promised in a contract with a customer and identify as a performance obligation each promise to transfer to the customer.

For each performance obligation, it is determined at the beginning of the contract whether the performance obligation will be carried out over time or at a certain time. If the Group transfers control of a good or service over time and therefore fulfils its performance obligations regarding the related sales over time, it measures the progress towards the fulfilment of the performance obligations in question and takes the revenue to the financial statements.

When the Group fulfils its performance obligation by transferring a committed good or service to its customer, it records the transaction value corresponding to this performance obligation in its financial statements. When the control of the goods or services takes over (or passes) to the customers, the goods or services are transferred.

In the beginning of the contract, the Group does not make any adjustments for the effect of an material financing component in the promised price if the period between the transfer date of the goods and services promised to the customer and the date when the customer pays the price of this goods or service will be one year or less. On the other hand, if there is a material financing element in revenue, the revenue value is determined by reducing the future collections with the interest rate included in the financing element. The difference is recorded in the relevant periods as other income from the main activities on an accrual basis.

## Interest Income

Interest income from financial assets is recorded as long as it is possible for the Group to obtain economic benefits and measure the income reliably. Interest income is accrued in the relevant period in proportion to the remaining principal balance and the effective interest rate that reduces the estimated cash inflows from the related financial asset to the book value of that asset.

## Income Taxes

Tax expense (income) is the aggregate amount included in the determination of net profit or loss for the period in respect of current and deferred taxes.

Deferred income tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred income tax liabilities are recognized for all taxable temporary differences.

Deferred income tax assets are recognized for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carry-forward of unused tax assets and unused tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized, or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

## **Foreign Currency Transactions**

Each entity within the Group translates its foreign currency transactions and balances into its functional currency by applying the exchange rate between the functional currency and the foreign currency on the date of the transaction. Exchange rate differences arising on the settlement of monetary items or on reporting monetary items at rates different from those at which they were initially recorded during the period or reported in previous financial statements are recognized in the income statement in the period in which they arise.

## **Earnings Per Share**

Basic earnings per share (EPS) is calculated by dividing the net profit for the period to the weighted average number of ordinary shares outstanding during the reporting periods. The weighted average number of shares outstanding during the year has been adjusted in respect of free shares issued without corresponding increase in resources. The Group has no diluted instruments.

## Subsequent Events

Post period-end events that provide additional information about the Group's position at the balance sheet date (adjusting events), are reflected in the financial statements and footnotes. Post period-end events that are not adjusting events are disclosed in the notes when material.

## Government incentives and grants

Grants from the government are recognized at fair value where there is a reasonable assurance that the grant will be received, and the Group will comply with all the required conditions. Government grants related to costs are accounted as income on a consistent basis over the related periods with the matching costs. Government grants relating to property, plant and equipment are included in non-current liabilities as deferred government grants and are credited to the statement of comprehensive income on a straight-line basis over the expected lives of the related assets.

## 5. SEGMENT REPORTING

The Group produces segment reports for the chief operating decision maker (Board of Directors and Executive Management) in accordance with basis of preparation as explained in Note 2. Reported information is used by management for observing performance at operation segments and for deciding resource allocation. Transfer prices between related parties are on an arm's length basis in a manner similar to transactions with third parties.

Group's subsidiaries are presented under Note 1 and Group's segment reporting is as follows:

| Less: Allowance for expected credit loss | (109.601)         | (66.369)          |
|  | 738.663           | 699.801           |

As of December 31, 2020, and 2019 allowance for expected credit loss movement is as following:

|  | December 31, 2020 | December 31, 2019 |
|--|-------------------|-------------------|
| Balance at January 1,                  | 66.369            | 51.523            |
| Current year provision                 | 40.401            | 16.889            |
| Reversals from provision               | (1.956)           | (1.934)           |
| Write-offs from expected credit losses | (1.587)           | (2.601)           |
| Currency translation difference        | 6.374             | 2.492             |
|  | 109.601           | 66.369            |

The Group always measures the loss allowance for trade receivables at an amount equal to lifetime expected credit losses. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Group has recognized a loss allowance of 100% against all receivables over 60 and/or 90 days past due because historical experience has indicated that these receivables are generally not recoverable. There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

As of December 31, 2020, and 2019 aging of receivables table is as following:

| Neither past<br>due nor<br>December 31, 2020 impaired | Neither past      |             | Past du     | lue receivables (Days) |             |             | _                   |

### Coca-Cola İçecek Anonim Şirketi

Notes to Consolidated Financial Statements for the year ended December 31, 2020

(Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated)

### 20. PROPERTY, PLANT AND EQUIPMENT (continued)

The Group has made significant assumptions over the useful life of spare parts for machinery and equipment based on the expertise of the technical departments. Group has made an estimation change in useful life assumption in 2020 and decreased the 20 years useful life assumption to 10 years. This estimation change does not require any retrospective application on the financial statements and effect on current period depreciation is approximately amounting to TL 121,5 million negatively.

#### Impairment Loss

As of December 31, 2020, the Group had provided impairment losses amounting to TL 18.078 (December 31, 2019 - TL 5.924) for property, plant and equipment that had greater carrying value than its estimated recoverable amount. This impairment had been provided for "Out of Use" tangible assets (Note 33).

For the year ended December 31, 2020, there isn't any capitalized borrowing costs on construction in progress (December 31, 2019 - None).

#### **Right of Use Asset**

The Group applied TFRS 16 "Leases" retrospectively and recognizes a right-of use asset and a lease liability in financial statements at the lease commencement date.

The right of use asset is initially recognized at cost comprising of:

- a) amount of the initial measurement of the lease liability;
- b) any initial direct costs incurred by the Group; and

The Group re-measure the right of use asset:

- a) after netting-off depreciation and reducing impairment losses from right of use asset,
- b) adjusted for certain re-measurements of the lease liability recognized at the present value

The Group applied TAS16 "Property, Plant and Equipment" to calculate the right of use asset depreciation.

For the twelve months ended December 31, 2020 and 2019, balances and depreciation and amortization expenses of right of use assets are as follows:

#### 24. PROVISIONS, CONTINGENT ASSETS and LIABILITIES (continued)

#### Tax and Legal Matters

Legislation and regulations regarding taxation and foreign currency transactions in most of the territories in which the Group operates out of Turkey continue to evolve. The various legislation and regulations are not always clearly written, and the interpretation related with the implementation of these regulations is subject to the opinions of the local, regional and national tax authorities, the Central Bank and Ministry of Finance. Tax declarations, together with other legal compliance areas are subject to review and investigation by a number of authorities, who are enabled by law to impose significant fines, penalties and interest charges. These facts create tax risks in the territories in which the Group operates substantially more so than typically found in countries with more developed tax systems.

As per the change in governing law in Pakistan, "Capacity Tax" was started to be applied as of July 9, 2013, replacing "Sales and Excise Tax". CCBPL fulfilled all the obligations as per the new law and change in regulations.

As of May 2014, "Capacity Tax" application was cancelled by the constitutional court and the law has been reverted to "Sales and Excise Tax". After this withdrawal, CCBPL fulfilled all the obligations again according to "Sales and Excise Tax" system.

After the withdrawal, Federal tax office in Pakistan requested PKR 3.505 million (equivalent to USD 21,9 million) additional tax payment from CCBPL, by arguing that "Sales and Excise Tax" should be applied retrospectively by considering the period before the cancellation of "Capacity Tax" application. Company Management objected and litigated this request, since withdrawal decisions of constitutional court could not be applied retrospectively in principle. In the opinion of Management, the outcome of the litigation will be favorable (December 31, 2019 - PKR 3.505 million, equivalent to USD 22,6 million).

#### 25. COMMITMENTS

#### Murabaha

CCBPL has signed Murabaha facility agreements with Habib Bank Limited and Standard Chartered Bank ("Banks"). Based on these agreements, the Banks and CCBPL agree that they shall enter into a series of sugar and resin purchase transactions from time to time on the dates and in the amounts to be agreed between them subject to the terms of this agreement. As of December 31, 2020, CCBPL has USD 2,8 million sugar purchase commitment to the Banks until the end of June 2021 and has USD 0,8 million sugar purchase commitment to the Banks until the end of December 2021.

As of December 31, 2019, CCBPL has USD 84 million sugar purchase commitment to the Banks until the end of March 2020 and has USD 3,2 million sugar purchase commitment to the Banks until the end of June 2020.

#### Legal reserves

The legal reserves consist of first and second legal reserves, appropriated in accordance with the Turkish Commercial Code. The first legal reserve is appropriated out of historical statutory profits at the rate of 5% per annum, until the total reserve reaches 20% of the historical paid-in share capital. The second legal reserve is appropriated after the first legal reserve and dividends, at the rate of 10% per annum of all cash dividend distributions.

Listed companies distribute dividend in accordance with the communique No. II-19.1 issued by the CMB which is effective from February 1,2014.

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and also in conformity with relevant legislations. The communique does not constitute a minimum dividend rate. Companies distribute dividend in accordance with the method defined in their dividend policy or articles of incorporation. In addition, dividend can be distributed by fixed or variable instalments and advance can be paid in accordance with profit on financial statements of the Group.

Inflation adjustment to shareholders' equity can only be netted-off against prior years' losses and used as an internal source for capital increase where extraordinary reserves can be netted-off against prior years' loss and used in the distribution of bonus shares and dividends to shareholders. In case inflation adjustment to issued capital is used as dividend distribution in cash, it is subject to corporation tax.

As of December 31, 2020, and 2019 breakdown of the equity of the Group in its tax books is as follows.

#### 36. TAX RELATED ASSETS AND LIABILITIES

#### General information

The Group is subject to taxation in accordance with the tax regulations and the legislation effective in the countries in which the Group companies operate. In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

In Turkey, corporate tax rate is 22% (December 31, 2019 - 22%). In accordance with the regulation numbered 7061, published in Official Gazette on 5 December 2017, corporate tax rate for the years 2018, 2019 and 2020 has increased from 20% to 22%. Therefore, deferred tax assets and liabilities as of 31 December 2020 are calculated with 22% tax rate for the temporary differences which will be realized in 2018, 2019 and 2020, and with 20% tax for those which will be realized after 2021 and onwards.

Corporate tax returns are required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in full by the end of the fourth month. The tax legislation provides for a provisional tax of 22% (2019 - 22%) to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year. Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of 5 years.

#### 39. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Group's principal financial instruments are comprised of bank borrowings, bond issues, cash and short-term deposits. The main purpose of these financial instruments is to raise financing for the Group's operations. The Group has various other financial instruments such as trade debtors and trade creditors, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign currency risk, and credit risk. The Group management reviews and agrees policies for managing each of these risks which are summarized below. The Group also monitors the market price risk arising from all financial instruments.

#### (a) Capital Management

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business and maximize shareholder value.

The Group manages its capital structure and adjusts it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or return capital to shareholders and may decide on issue of new shares or sell assets to decrease net financial debt.

As of December 31, 2020, and 2019 debt to equity ratio, obtained by dividing the total net debt to share capital is as follows:

Net debt is the financial borrowings less cash and cash equivalents and short-term financial assets.

|   | December 31, 2020 | December 31, 2019 |
|---|-------------------|-------------------|
| Borrowings  | 6.160.412         | 5.491.442         |
| Less: Cash and cash equivalents and short-term financial assets | (4.683.760)       | (2.932.770)       |
| Net debt  | 1.476.652         | 2.558.672         |
| Total share capital   | 254.371           | 254.371           |
| Net debt / Total equity ratio (%)                               | 5,81              | 10,06             |

#### (b) Interest Rate Risk

The Group is exposed to interest rate risk through the impact of rate changes on interest bearing assets and liabilities. The Group manages interest rate risk by balancing the interest rate of assets and liabilities or derivative financial instruments.

Certain parts of the interest rates related to borrowings are based on market interest rates; therefore, the Group is exposed to interest rate fluctuations on domestic and international markets. The Group's exposure to market risk for changes in interest rates relates primarily to the Group's debt obligations.

As of December 31, 2020, if variable interest rate on the Group's borrowings would have been 100 basis points higher / lower with all other variables held constant, then profit / (loss) before tax and non-controlling interest for March 31, 2021, which is the following reporting period would be:

|  | Effect on Profit Before Tax<br>and Non-Controlling Interest |       |  |
|--|---|-------|--|
|  | December 31, 2020 December                                  |       |  |
| Increase / decrease of 1% interest in USD denominated borrowing interest rate  | 84  | 482   |  |
| Increase / decrease of 1% interest in Euro denominated borrowing interest rate | 1.547   | 1.539 |  |
| Increase / decrease of 1% interest in PKR denominated borrowing interest rate  | 348   | 331   |  |
| Total  | 1.979   | 2.352 |  |

#### (c) Foreign Currency Risk

The Group is exposed to exchange rate fluctuations due to the nature of its business. This risk occurs due to purchases, sales, demand / time deposits and bank borrowings of the Group, which are denominated in currencies other than the functional currency. The Group manages its foreign currency risk by balancing the amount of foreign currency denominated assets and liabilities.

#### 39. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

### (d) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Group to significant concentration of credit risk consist principally of cash and cash equivalents and trade receivables. Maximum credit risk on the Group is limited to the amounts disclosed on the financial statements.

The Group maintains cash and cash equivalents with various financial institutions. It is the Group's policy to limit exposure to any one institution and revalue the credibility of the related financial institutions continuously.

The credit risk associated with trade receivables is partially limited due to a large customer base and due to management's limitation on the extension of credit to customers. The Group generally requires collateral to extend credit to its customers excluding its distributors.

Credit risk exposure from financial instruments as of December 31, 2020 and 2019 are as follows:

#### (e) Liquidity Risk

Liquidity risk is the risk that an entity will be unable to meet its net funding requirements. The risk is mitigated by matching the cash in and out flow volume supported by committed lending limits from qualified credit institutions, bond issues, cash and short-term deposits.

The maturity breakdown of financial assets and liabilities has been indicated by considering the period from the balance sheet date to maturity date. Those financial assets and liabilities which have no maturities have been classified under "1 to 5 years".

The table below summarizes the maturity profile of the Group's financial and liabilities at December 31, 2020 and 2019.

#### 39. NATURE AND LEVEL OF RISKS ARISING FROM FINANCIAL INSTRUMENTS (continued)

#### (f) Commodity Price Risk

The Group may be affected by the price volatility of certain commodities such as sugar, aluminum and resin. As its operating activities require the ongoing purchase of these commodities, the Group's management has a risk management strategy regarding commodity price risk and its mitigation.

Based on a 12-month anticipated purchase of can, the Group hedges using commodity (aluminum) swap contracts (Note 8).

Based on a 12-month anticipated purchase of can, the Group hedges using commodity (sugar) swap contracts (Note 8).

#### Fair Values

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and best evidenced by a quoted market price, if one exists.

Foreign currency-denominated financial assets and liabilities are revalued at the exchange rates prevailing at the balance sheet dates.

The following methods and assumptions were used in the estimation of the fair value of the Group's financial instrument:

**Financial Assets** – The fair values of certain financial assets carried at cost, including cash and cash equivalents and held to maturity investments plus the respective accrued interest are considered to approximate their respective carrying values due to their short-term nature and negligible credit losses. The carrying values of trade receivables along with the related expected credit losses are estimated to be at their fair values.

*Financial Liabilities* – The fair values of trade payables and other monetary liabilities are estimated to approximate carrying values, due to their short-term nature. The fair values of bank borrowings are considered to approximate their respective carrying values, since the initial rates applied to bank borrowings are updated periodically by the lender to reflect active market price quotations. The carrying values of trade payable are estimated to be their fair values due to their short-term nature.

#### 41. SUBSEQUENT EVENTS

On September 10, 2020, Coca-Cola İçecek AŞ's (CCI) Board of Directors resolved to invite Our Company's shareholders to the Extraordinary General Assembly meeting to propose the distribution of a total TL 211.127.749,00 gross dividends to be paid from accumulated profits in accordance with the Provisional Article 13/1 of Turkish Commercial Code No. 6102 and Communiqué on the Procedures and Principles Regarding the implementation of the Provisional Article 13 of the Turkish Commercial Code numbered 6102. However, with the Presidential Decree no. 2948 published in the Official Gazette dated September 18, 2020, it was decided to extend the restriction period for the distribution of profits specified in the aforementioned Communiqué by three months to December 31, 2020, therefore the dividend distribution and the extraordinary general assembly processes were cancelled.

Now that the restriction period has ended, CCI Board of Directors resolved on January 20, 2021 to invite our Company's shareholders to the Extraordinary General Assembly meeting to propose the distribution of a total TL 211.127.749,00 gross dividends (from extraordinary reserves after legal liabilities are deducted) to be fully paid from accumulated profits. Total dividend amount will be paid starting from February 18, 2021.

At the Extraordinary General Assembly Meeting dated February 17, 2021, pursuant to the Board of Directors' proposal dated January 20, 2021, the distribution of a total gross dividends of TL 211.127.749,00 is approved with majority of the votes, to be paid starting from February 18, 2021.
