While purchase expenses regarding research and development in tangible assets in 2019 are subject to cost of sales decreasing the profit for the period and having the characteristic of expenses not providing cash outflow, a positive reclassification has been made and posted under "Adjustments to reconcile profit for the period". Such cash outflows and inflows were reported under "Cash flows from investing activities" as net value previously.

As a result of the evaluations made within the scope of TAS 7 "Cash Flow Statements" standard, the interest paid/received and dividends are classified as cash flow from operating activities since those are considered in determining profit or loss.

**2.4 New and Revised Turkish Accounting Standards****a-Standards Adopted as of 01 January 2020****Amendments to TFRS 3 - Definition of a Business**

Determining whether a transaction results in an asset or a business acquisition has long been a challenging but important area of judgement. The IASB has issued amendments to IFRS 3 Business Combinations to make it easier for companies to decide whether activities and assets they acquire are a business or merely a group of assets. In May 2019, POA has also published the Definition of Business (Amendments to TFRS 3). With this amendment confirmed that a business shall include inputs and a process and clarified that the process must be substantive and the inputs and process must together significantly contribute to creating outputs. It narrowed the definitions of a business by focusing the definition of outputs on goods and services provided to customers and other income from ordinary activities, rather than on providing dividends or other economic benefits directly to investors or lowering costs and added a concentration test that makes it easier to conclude that a company has acquired a group of assets, rather than a business, if the value of the assets acquired is substantially all concentrated in a single asset or group of similar assets. This is a simplified assessment that results in an asset acquisition if substantially all of the fair value of the gross assets is concentrated in a single identifiable asset or a group of similar identifiable assets. If a preparer chooses not to apply the concentration test, or the test is failed, then the assessment focuses on the existence of a substantive process.

The amendment applies to businesses acquired in annual reporting periods beginning on or after 1 January 2020. The amendment has no impact on the consolidated financial position and performance of the Group.

**Definition of Material (Amendments to TAS 1 and TAS 8)**

On 21 June 2019, The amendments clarify the definition of material and how it should be applied by including in the definition guidance that until now has featured elsewhere in TFRS Standards. In addition, the explanations accompanying the definition have been improved. Finally, the amendments ensure that the definition of material is consistent across all TFRS Standards. This amendments have an effective date of 1 January 2020 but companies can apply it earlier.

The amendment applies to businesses acquired in annual reporting periods beginning on or after 1 January 2020. The amendment has no impact on the consolidated financial position and performance of the Group.

**Interest Rate Benchmark Reform (Amendments to TFRS 9, TAS 39 and TFRS 7)**

Interest Rate Benchmark Reform, which amended TFRS 9, TAS 39 and TFRS 7 issued in September 2019, added Section 6.8 and amended paragraph 7.2.26. About this issue, IASB identified two groups of accounting issues that could affect financial reporting. These are: pre-replacement issues—issues affecting financial reporting in the period before the reform; and replacement issues—issues that might affect financial reporting when an existing interest rate benchmark is either reformed or replaced.

**a-Standards Adopted as of 01 January 2020 (continued)**

**Interest Rate Benchmark Reform (Amendments to TFRS 9, TAS 39 and TFRS 7) (continued)**

IASB considered the pre-replacement issues to be more urgent and decided to address the following hedge accounting requirements as a priority in the first phase of the project:

- The highly probable requirement;
- Prospective assessments;
- IAS 39 retrospective assessment; and
- Separately identifiable risk components.

All other hedge accounting requirements remain unchanged. The amendment applies to businesses acquired in annual reporting periods beginning on or after 1 January 2020. The amendment has no impact on the consolidated financial position and performance of the Group.

**b-Standards Issued But Not Yet Effective and Not Early Adopted as of 31 March 2020**

**TFRS 17 – Insurance Contracts**

On 16 February 2019, POASA issued TFRS 17 Insurance Contracts. This first truly globally accepted standard for insurance contracts will help investors and others better understand insurers' risk exposure, profitability and financial position. TFRS 17 replaces TFRS 4, which was brought in as an interim Standard in 2004. TFRS 4 has given companies dispensation to carry on accounting for insurance contracts using national accounting standards, resulting in a multitude of different approaches. As a consequence, it is difficult for investors to compare and contrast the financial performance of otherwise similar companies. TFRS 17 solves the comparison problems created by TFRS 4 by requiring all insurance contracts to be accounted for in a consistent manner, benefiting both investors and insurance companies. Insurance obligations will be accounted for using current values – instead of historical cost. The information will be updated regularly, providing more useful information to users of financial statements. TFRS 17 has an effective date of 1 January 2023 but companies can apply it earlier.

The Group does not expect that application of TFRS 17 will have significant impact on its consolidated financial statements.

**TMS 1- Classification of Liabilities as Current and Non-Current Liabilities**

On March 12, 2020, the KGK issued amendments to IAS 1 Presentation of Financial Statements. The amendments issued to TMS 1 which are effective for periods beginning on or after 1 January 2022, clarify the criteria for the classification of a liability as either current or non-current. Amendments must be applied retrospectively in accordance with TMS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Early application is permitted. The Group is in the process of assessing the impact of the amendments on financial position or performance of the Group.
