

AKSIGORTA A.Ş.

**FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2020
TOGETHER WITH INDEPENDENT AUDITOR'S REPORT**

INDEPENDENT AUDITOR’S REPORT

To the Board of Directors of Aksigorta A.Ş.

Report on the audit of the financial statements

Our opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Aksigorta A.Ş. (“the Company”) as at 31 December 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRS”).

What we have audited

The Company’s financial statements comprise:

- the statement of financial position as at 31 December 2020;
- the statement of income for the year then ended;
- the statement of comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the Auditor’s responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") and "Independence Audit by-Law" published by the Public Oversight Accounting and Auditing Standards Authority ("POA") and independent auditing requirements referred to in Article 400 of the Turkish Commercial Code ("TCC") (collectively referred to as "Turkish Local Independence Rules"). We have fulfilled our other ethical responsibilities in accordance with IESBA Code and Turkish Local Independence Rules.

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we considered where management made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and industry in which the Company operates.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<p><i>Estimation of incurred but not reported claims provision</i></p> <p>As explained in Notes 2.16 and 18, the Company has significant gross insurance liabilities of TL 7,047 million representing 77% of the Company's total equity and liabilities as of 31 December 2020. Concerning the estimation of incurred but not reported claims provision which is amounting to gross TL 1,231 million arising from claims accounted under insurance liabilities as of 31 December 2020, the Company uses actuarial methods. The choice of selected methods and development factors for each accident year for each class of business depends on the best estimate of the Company.</p> <p>The reason we focus on this area during our audit is the significance of the incurred but not reported claims provision for the financial statements and the significant actuarial judgments and estimates required by the nature of such provision in the financial statements.</p>	<p>We tested the design and operational effectiveness of the key controls implemented by the Company's management in relation to the ultimate claims used in the calculation of incurred but not reported claims provision. We performed reconciliation of the data used in the calculation of incurred but not reported claims for selected branches with the financial statements. Our actuaries have assessed the estimated loss ratios and expected damage developments trends together with the selected actuarial techniques considering past damage experiences and sector developments. In addition, for selected branches, we made an estimation of the reasonable ranges for the incurred but not reported claims provision and compared them with the Company's records.</p> <p>We checked the adequacy and accuracy of the disclosures in the financial statements related to such provision.</p>

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

AKSIGORTA A.Ş.

NOTES TO THE FINANCIAL STATEMENTS AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

1. General Information

Aksigorta A.Ş. (the "Company") is a subsidiary of Hacı Ömer Sabancı Holding A.Ş. and Ageas Insurance International N.V. as of December 31, 2020. 38.02% (December 31, 2019: 38.02%) of the Company is issued in Borsa İstanbul ("BİST").

The Company is a corporation, which was established in accordance with the requirements of Turkish Commercial Code and registered in Turkey as at April 25, 1960. The Company is located at Poligon Cad. Buyaka 2 Sitesi No:8 Kule:1 Kat:0-6 Ümraniye 34771, İstanbul.

The Company's main operations include insurance activities based on non-life insurance branches, including motor own damage, motor third party liability, fire, marine, accident, personal accident, engineering, agriculture and health.

Average numbers of employees during the period by category are as follows:

	December 31, 2020	December 31, 2019
Top and middle management	144	130
Other personnel	524	534
Total	668	664

Remuneration and fringe benefits provided to top management such as; chairman and members of the board of directors, managing director and assistant managing directors amount to TL 8,980,560 in total for January 1 - December 31, 2020 (January 1 - December 31, 2019: TL 7,418,631).

Financial statements include only one company (Aksigorta A.Ş.) and the Company does not have any subsidiaries or affiliates as of December 31, 2020 (December 31, 2019: None).

The Company's financial statements as of December 31, 2020 are approved and authorized for issuance as of February 1, 2021 by the Board of Directors.

2. Summary of significant accounting policies

2.1 Basis of preparation

The financial statements at December 31, 2020 have been prepared in accordance with International Financial Reporting Standard as defined by IAS 1.

The Company maintains its books of account and prepares its statutory financial statements in Turkish Lira ("TL") in accordance with the Insurance Law numbered 5684 and the regulations issued for insurance and reinsurance companies by the Undersecretariat of Treasury which is also the functional currency of the Company. These financial statements are based on the statutory records, with adjustments and reclassifications, for the purpose of fair presentation in accordance with IFRS.

The preparation of financial statements in accordance with IFRS requires the use of estimates. It also requires management to exercise its judgements in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to financial statements are disclosed Note 3.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Comparative information and restatement of prior period financial statements

The Company's statement of financial position as of December 31, 2020 is presented in comparison with its statement of financial position as of December 31, 2019; statement of comprehensive income, statement of changes in equity and statement of cash flows for the period between January 1 -December 31, 2020 are presented in comparison with its statement of comprehensive income, statement of changes in equity and statement cash flows for the period between January 1 - December 31, 2020.

2.2 Adoption of New and Revised Standards

The new standards, amendments and interpretations

The accounting policies adopted in preparation of the financial statements as at December 31, 2020 are consistent with those of the previous financial year, except for the adoption of new and amended IFRS and IFRIC interpretations effective as of January 1, 2020. The effects of these standards and interpretations on the Company's financial position and performance have been disclosed in the related paragraphs.

i) Standards, amendments and interpretations applicable as at December 31, 2020:

- **Amendments to IAS 1 and IAS 8 on the definition of material;** effective from Annual periods beginning on or after January 1, 2020. These amendments to IAS 1, 'Presentation of financial statements', and IAS 8, 'Accounting policies, changes in accounting estimates and errors', and consequential amendments to other IFRSs:
 - i) use a consistent definition of materiality throughout IFRSs and the Conceptual Framework for Financial Reporting;
 - ii) clarify the explanation of the definition of material; and
 - iii) incorporate some of the guidance in IAS 1 about immaterial information.
- **Amendments to IFRS 3 - definition of a business;** effective from Annual periods beginning on or after January 1, 2020. This amendment revises the definition of a business. According to feedback received by the IASB, application of the current guidance is commonly thought to be too complex, and it results in too many transactions qualifying as business combinations.
- **Amendments to IFRS 9, IAS 39 and IFRS 7 - Interest rate benchmark reform;** effective from Annual periods beginning on or after January 1, 2020. These amendments provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement. Given the pervasive nature of hedges involving IBOR-based contracts, the reliefs will affect companies in all industries.
- **Amendment to IFRS 16, 'Leases' - Covid-19 related rent concessions;** effective from Annual periods beginning on or after June 1, 2020. As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. On May 28, 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.2 Adoption of New and Revised Standards (Continued)

The new standards, amendments and interpretations (Continued)

ii) Standards, amendments and interpretations that are issued but not effective as at December 31,2020:

- **IFRS 17, 'Insurance contracts';** effective from annual periods beginning on or after January 1,2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.
- **Amendments to IAS 1, Presentation of financial statements' on classification of liabilities;** effective from January 1, 2022. These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.
- **A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 37 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16;** effective from Annual periods beginning on or after January 1, 2022.
 - o **Amendments to IFRS 3, 'Business combinations'** update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations. .
 - o **Amendments to IAS 16, 'Property, plant and equipment'** prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.
 - o **Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets'** specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'.
- **Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform Phase 2;** effective from annual periods beginning on or after January 1, 2021. The Phase 2 amendments address issues that arise from the implementation of the reforms, including the replacement of one benchmark with an alternative one.
- **Amendments to IFRS 17 and IFRS 4, 'Insurance contracts', deferral of IFRS 9;** effective from annual periods beginning on or after January 1, 2021. These amendments defer the date of application of IFRS 17 by two years to January 1, 2023 and change the fixed date of the temporary exemption in IFRS 4 from applying IFRS 9, Financial Instrument until January 1, 2023.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)**2.3 Consolidation**

The Company has no subsidiaries or joint ventures within the scope of consolidation in accordance with "IFRS 10- Consolidated Financial Statements" as of December 31, 2020 (December 31, 2019: None).

2.4 Segment Reporting

Reporting segments are determined to conform to the reporting made to the Company's chief operating decision maker. The chief operating decision maker is responsible for making decisions about resources to be allocated to the segment and assess its performance. Details related to the segment reporting are disclosed in the Note 5.

2.5 Foreign currency translation

The functional currency of the Company is TL. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated to Turkish Lira at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Changes in the fair value of monetary securities denominated in foreign currency classified as available for sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in equity.

Foreign exchange differences arising from the translation of non monetary financial assets and liabilities are considered as part of the fair value changes and those differences are accounted for in the accounts in which the fair value changes are accounted for.

Foreign currency assets and liabilities are converted by using period end exchange rates of Central Bank of the Republic of Turkey's bid rates. For the conversion of liabilities the exchange rate stated at the contract is used.

The Central Bank of the Republic of Turkey exchange rates used in the conversion is as follows:

	December 31, 2020		December 31, 2019	
	USD/TL	EUR/TL	USD/TL	EUR/TL
Bid Rates	7.3405	9.0079	5.9402	6.6506
Ask Rates	7.3647	9.0376	5.9598	6.6725

2.6 Tangible Assets

All property and equipment are carried at cost less accumulated depreciation. Since lands have infinite life, they are not depreciated. Depreciation is calculated using the straight-line method over the estimated useful life of the tangible assets. For assets that are not ready for use or sale, such assets are depreciated, on the same basis used for other fixed assets, when they are ready to use.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)**2.6 Tangible Assets (Continued)**

Estimated useful life, residual value, and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. If there are indicators of impairment on tangible assets, a review is made in order to determine possible impairment and as a result of the review, if an asset's carrying amount is greater than its estimated recoverable amount, the asset's carrying amount is written down immediately to its recoverable amount by accounting for a provision for impairment. Gains and losses on disposals of property and equipment are included in other operational income and expenses accounts.

Assets acquired under finance lease are depreciated as the same basis as tangible assets or, where shorter, the term of the relevant lease.

Gain or loss arising on the disposal or retirement of an item of tangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized to profit or loss.

Depreciation periods for tangible assets are presented in the table below:

	Useful Life
Properties	50 years
Furniture and fixtures	10 years
Motor vehicles	5 years
Leasehold Improvements	5 years

Right of Use Asset

Right-of-use asset is accounted for initially using the cost method and is measured at its cost adjusted for the re-measurement of the lease liability and less any accumulated depreciation and accumulated impairment losses. The Company applies the depreciation provisions in the TAS 16 Tangible Fixed Assets standard while depreciating the right of use asset.

Lease Liability

On adaption of IFRS 16, the Company recognised lease liabilities in relation to leases which had previously been classified as "operating leases" under the principle of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of the starting date of the lease agreements. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on December 31, 2020 was 20% for local currency liabilities (December 31, 2019: 25%).

2.7 Investment properties

The buildings and lands of the Company held for the purpose of receiving rent or an increase in value or both instead of being used in the operations of the Company or being sold within the normal business course are classified as investment properties. The investment properties are carried at acquisition cost by deducting the accumulated depreciation. Investment properties are amortised by the straight-line method over their estimated useful lives. If there are indicators of impairment on investment properties, a review is made in order to determine possible impairment and as a result of this review, if the property's carrying amount is greater than its estimated recoverable amount, the property's carrying amount is written down immediately to its recoverable amount by accounting for an impairment provision. The recoverable amount is the higher of the future cash inflows from the existing use of the investment property and the fair value of the property after cost of sale.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.7 Investment properties (Continued)

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the period of retirement or disposal (Note 8).

2.8 Intangible assets

Intangible assets acquired

Intangible assets acquired are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is charged on a straight-line basis over their estimated useful lives. Estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred from the date of acquisition to the date to bring the specific software in use. These costs are amortized over their estimated useful lives (1 to 10 years). Costs associated with developing or maintaining computer software programmes are recognized as expense as incurred. Costs that are directly associated with the development of identifiable and unique software products that are controlled by the Company and will probably provide more economic benefits than costs in one year are recognized as intangible assets. Costs include software development employee costs and an appropriate portion of relevant overheads. Computer software development costs recognized as assets are amortized over their estimated useful lives.

Useful life:

Rights

5 years

2.9 Financial assets

The Company classifies and accounts for its financial assets as, "Available-for-sale financial assets", "Held to maturity financial assets", "Held for trading" and "Loans and receivables (Premium receivables)". Premium receivables are the receivables arising from insurance agreements and they are classified as financial assets in financial statements.

Regular purchases and sales of financial assets are recognised on the "settlement date". The classification of these financial assets depends on the purpose for which they were acquired and the Company's management determines the classification of its financial assets at initial recognition.

Loans and receivables (Premium receivables)

Loans and receivables are financial assets which are generated by providing money or service to the debtor. Loans and receivables are recognised initially at fair value and subsequently measured at cost. Fees and other charges paid related to assets obtained as guarantee for the above mentioned receivables are not deemed as transaction costs and they are recognised as expense in the income statement.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.9 Financial assets (Continued)

Loans and receivables (Premium receivables) (Continued)

The Company accounts for a provision for its receivables based on evaluations and estimations of the management. The mentioned provision is deducted from "Premium receivables" on the statement of financial position. The Company sets its estimations in accordance with the risk policies and the principle of prudence by considering the structure of current receivable portfolio, financial structure of policyholders and intermediaries, non-financial data and economical conditions.

Available-for-sale financial assets

Investments other than "financial assets at fair value through profit or loss", and "loans and receivables" are described as available-for-sale financial assets.

Available-for-sale financial assets are subsequently measured at fair value after their recognition. It is considered that the fair value cannot be reliably measured if the price that provides a basis for fair value is not set in active market conditions and "amortised cost value" that is calculated using the effective interest method is used as fair value. Equity securities classified as available-for-sale are carried at fair values if they have quoted market prices in active markets and/or if their fair value can be reliably measured. The equity securities that do not have a quoted market price in an active market, and if their fair value cannot be reliably measured are carried at cost less the provision for impairment.

"Unrealised gains and losses" arising from the change in the fair value of available-for-sale financial assets is accounted for under "Valuation of Financial Assets" account in the shareholders' equity and not reflected in the income statement until the financial asset is sold, disposed or derecognised. The unrealised gains and losses arising from the change in the fair value is removed from shareholders' equity and recognised in the income statement when the financial assets mature or are derecognised. The Company assesses at each statement of financial position date whether there is objective evidence that an available-for-sale financial asset is impaired. In the case of equity investments classified as available-for-sale financial assets, such as, a significant or prolonged decline in the fair value of the security below its cost is considered as impairment. If any objective evidence for impairment exists for available-for-sale financial assets, the difference between the acquisition cost and current fair value is deducted from shareholders' equity and recognised in the income statement. The impairment losses on available-for-sale equity instruments previously recognised in the profit or loss cannot be reversed through profit or loss.

Held to maturity financial assets

Held-to-maturity financial assets are intended to be held until their maturities and including ability to funding, provided the circumstances to be held to maturity, with fixed or determinable payments and with fixed maturity, and apart from loans and receivables, when recognized, not recognized as financial assets at fair value through profit or loss and not available for sale financial assets. These financial assets, initially recognized at the acquisition cost and is considered fair value. The fair value of held-to-maturity financial assets is determined on transaction cost of these financial assets or market price of similar financial instruments. Held-to-maturity financial assets are carried at amortized cost. Contribution income related to held-to-maturity financial assets is reflected in the income statement.

The Company does not allocate any impairment on short-term market fluctuations, provided that there is no risk of collection of the securities representing the borrowings classified as held-to-maturity financial assets. If there is a risk of collection, the amount of the impairment is the difference between the book value of the financial asset and the value of the cash flows expected from the financial asset, if any, amortized based on the original effective rate of return.

NOTES TO THE FINANCIAL STATEMENTS

AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.9 Financial assets (Continued)

Financial assets held for trading

Financial assets held for trading are valued at their fair values and gain/loss arising is recorded in profit or loss. Interest income earned on trading securities and the difference between their acquisition costs and fair values are recorded as interest income in the statement of income. In case of sales of such securities before their maturity, the gains/losses on such sales are recorded under trading income/losses.

2.10 Reclassification of financial assets

Financial assets other than loans and receivables are permitted to be reclassified out of the held-for-trading category only in rare circumstances arising from a single event that is unusual and highly unlikely to recur in the near-term. In addition, the Company may choose to reclassify financial assets that would meet the definition of loans and receivables out of the held-for-trading or available-for-sale categories if the Company has the intention and ability to hold these financial assets for the foreseeable future or until maturity at the date of reclassification.

2.11 Impairment of Assets

The details about the impairment of assets are explained in the notes in which the accounting policies of the relevant assets are explained.

2.12 Related party

Parties are considered related to the Company if;

- (a) A person or a close member of that person's family is related to a reporting entity if that person:
 - (i) has control or joint control over the reporting entity;
 - (ii) has significant influence over the reporting entity; or
 - (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- (b) An entity is related to a reporting entity if any of the following conditions applies:
 - (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a) (i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

AKSIGORTA A.Ş.

NOTES TO THE FINANCIAL STATEMENTS AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.12 Related party (Continued)

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

In the financial statements and related notes dated December 31, 2020 and 2019, the Company management, groups associated to H.Ö. Sabancı Holding and Ageas Insurance International N.V. are defined as related parties.

2.13 Offsetting Financial Instruments

Financial assets and liabilities are offset only when there is a legally enforceable right to offset the recognised amounts, there is an intention to settle on a net basis, or when the acquisition of the asset and the settlement of liability take place simultaneously.

2.14 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and other short-term highly liquid investments, with maturities of three months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value (Note 10).

Cash and cash equivalents included in the statements of cash flows are as follows:

	December 31, 2020	December 31, 2019
Banks	1,600,368,638	1,356,583,321
Credit Card Receivables	669,855,762	706,459,191
Less: Interest accrual	(11,553,673)	(2,557,348)
Less: Blocked deposits	(264,061,660)	(228,718,207)
Total Cash and Cash Equivalents	1,994,609,067	1,831,766,957

As of December 31, 2020, the Company has repo transactions in the amount of TL 59,562,359 (December 31, 2019: TL 47,970,865) which is accounted in "obligations under repurchase agreements".

2.15 Share capital

As of December 31, 2020, the Company's nominal capital is TL 306,000,000 (December 31, 2019: TL 306,000,000). Share capital is represented by 30,600,000,000 of equity shares having a nominal amount of TL 0,01 each.

The share capital structure of the Company is as follows:

	December 31, 2020		December 31, 2019	
Name of shareholders	Share	Share amount	Share	Share amount
H. Ömer Sabancı Holding A.Ş.	36.00	110,160,000	36.00	110,160,000
Ageas Insurance International NV	36.00	110,160,000	36.00	110,160,000
Publicly quoted shares	28.00	85,680,000	28.00	85,680,000
Total	100.00	306,000,000	100.00	306,000,000

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.15 Share capital (Continued)

The Company has accepted the registered capital system set out in accordance with the provisions of Law No: 2499 and applied the system as of June 15, 2000 upon the permission no: 67/1039 granted by the Capital Markets Board. As of December 31, 2020, the Company's registered share capital is TL 500,000,000 (December 31, 2019: TL 500,000,000).

2.16 Insurance and investment contracts

Insurance contracts are contracts under which, in exchange for a premium, the insurer assumes the obligation to compensate a loss caused by the materialization of the danger (risk) having the consequence of harming the interest, measurable by money, of the concerned person or make payment or to fulfill other performances linked to the lifetime of one or several persons or upon the occurrence of some events in the course of their life.

The insurer can take out reinsurance, under conditions as it thinks appropriate, in respect of the interest it had covered.

Insurance contracts are accounted when the insurance risk is transferred, and classified as an insurance contract as of the maturity date and/or amortization of the all contractual rights and liabilities.

The main contracts produced by the Company are mainly in non-life branches such as motor own damage, motor third party liability, fire, marine, personal accident, engineering, health and agriculture insurance agreements.

The fire insurance agreements are classified as industrial and individual. The policyholder is insured for the physical losses and claims due to the risks such as fire, earthquake, bursting, flood. The policyholder is insured for losses caused by the complete or partial interruption of the operations as a result of an event covered by the insurance contract with loss of profit coverage. Casualty insurance contracts (Liability, Personal Accident and Motor) have two main purposes. These contracts protect the insured against the risk of damage of assets and against the risk of causing harm to third parties.

Marine insurance contracts contain insurance of transportation (vessels, or vehicles on land or air) and water vehicles (the payment for the claims occurred in sea, river and island vehicles). Engineering insurance contracts are subdivided into two groups. The contracts covering permanently installed risks for an indefinite period, and the contracts covering temporary, non-recurring risks. The first group consists of insurance protection against sudden and unforeseen damages or losses of the machines, mechanical equipment, plants and electronic equipments. The second group provides installation and construction insurance of which coverage is naturally limited with the guarantee period of installation and construction. Liability insurance contracts provide claims due to the air crafts, water crafts and land vehicles liability. Furthermore, the Company has major production of the animal life and publicly supported agriculture insurances which are included in general loss insurance contracts. Health insurance contracts are the contracts that pay benefits an insured who becomes ill or injured, provided that documentation is offered to confirm the illness or injury.

NOTES TO THE FINANCIAL STATEMENTS

AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.16 Insurance and investment contracts (Continued)

Unearned Premium Reserve

An unearned premium reserve is calculated on a daily basis for all policies in force as of the balance sheet date for unearned portions of premiums written, except for marine premiums. During the calculation of unearned portion of premiums written on a daily basis, it is supposed that the policies start at 12:00 noon and finish at 12:00 noon again. In accordance with the Regulation on Technical Reserves, unearned premium reserve and the reinsurers' share of the unearned premium reserve for policies issued after January 1, 2008, are calculated and accounted as the deferred portion of the accrued premiums related to the policies in force and ceded premiums to reinsurers without deducting commissions or any other deduction, on a daily and gross basis. The Company has continued to deduct the commissions from the premiums for the calculation of unearned premium reserve regarding the policies issued before January 1, 2008. For marine policies with an uncertain end date, unearned premium reserve is calculated as 50% of the premiums written in the last three months.

Deferred Commission Expense and Income

Unearned portion of commissions paid to agencies for the written premiums and commissions received from reinsurers for the ceded premiums are recorded as in deferred acquisition costs on the statement of financial position, and as expenses for the acquisition of insurance contracts on a net basis in the income statement.

Liability Adequacy Test

At each end of the reporting period, liability adequacy tests are performed to ensure the adequacy of the contract liabilities net of related DAC assets. In performing these tests, current best estimates of future contractual cash flows and claims handling and administration expenses, from the assets backingsuch liabilities, are used. Any deficiency is immediately charged to profit or loss initially by writing off DAC and by subsequently establishing a provision for losses arising from liability adequacy tests (the unexpired risk provision). Long-term insurance contracts with fixed terms are measured based on assumptions set out at the inception of the contract. When the liability adequacy test requires the adoption of new best estimate assumptions, such assumptions (without margins for adverse deviation) are used for the subsequent measurement of these liabilities. Any DAC written off as a result of this test cannot subsequently be reinstated. At each statement of financial position date, liability adequacy tests are performed to ensure the adequacy of the contract liabilities. In performing these tests, current best estimates of future cash flows are used. The adequacy of the unearned premium liability is assessed by considering the portion of the estimated value of claims and expenses, likely to arise after the end of the reporting period from existing contracts, that exceeds the provision for unearned premiums after deduction of any acquisition costs. Any deficiency is immediately charged to profit or loss. The assessment, whether a deficiency exists is made at the Company level since all insurance products are regarded as being managed together and there are no constraints on the ability to use assets held in relation to each line of business to meet any of the associated liabilities. For the purpose of calculating the additional provisions, the Company takes into account the investment return expected to be earned by investments held. The Company accounts additional reserves for the branches that the combined loss ratio calculated is higher than 100%.

NOTES TO THE FINANCIAL STATEMENTS

AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.16 Insurance and investment contracts (Continued)

Outstanding claims provision

Claims are charged to income as incurred based on the estimated liability for compensation owed to contract holders or third parties damaged by the contract holders. They include settlement costs and arise from events that have occurred up to the statement of financial position date even if they have not yet been reported to the Company. Outstanding claims are estimated using the input of assessments for individual cases reported and statistical analyses. The expected ultimate cost of claims is also affected by external factors such as court decisions.

Claims are payable on a claims-occurrence basis. The Company is liable for all insured events that occurred during the term of the contract, even if the loss is discovered after the end of the contract term. There are several variables that affect the amount and timing of cash flows from these contracts. These mainly relate to the inherent risks of the business activities carried out by individual contract holders and the risk management procedures they adopted.

For the estimation of the ultimate liability arising from claims made under insurance contracts, the Company uses Bornhuetter Ferguson ("BF"), Chain-Ladder and Frequency and Severity methods. The method for MTPL is based on frequency and severity method, for the rest of the branches are selected by applying weighted average incurred ultimate results of Chain-Ladder method and incurred or average of paid and incurred ultimate results of Bornhuetter Ferguson method are used for the estimation of ultimate liabilities. It involves the analysis of historical claim development factors based on historical pattern and also loss ratio is considered in BF method.

The appropriate development factors are then applied to cumulative claims data for each accident year that is not yet fully developed to produce an estimated ultimate claim cost for each accident year. The choice of selected factors for each accident year of each class of business depends on the best estimate of the Company. Considering the uncertainty about the amount and timing of claims, the Company made the estimation of claims development considering starting from the year of 2003 and a tail factor is used for some branches for future developments. The Company performs the ultimate liability estimation for large claims separately which are determined as large claims by using certain statistical methods since these claims have different claim development patterns. Additionally, the ultimate liability calculations are performed on gross basis and the net amounts are determined according to historical ceding rates on each accident quarter or applicable reinsurance treaties are applied to ultimate losses for each branch. A provision is calculated and accounted for unallocated loss adjustment expenses ("ULAE") refer to general overhead expenses associated with the claims-handling process, and particularly the costs of investigating, handling, paying, and resolving claims. The estimation for ULAE is calculated using the rate of historical expenses to total claim amounts. The methods which were selected by the Company for each branch, the results of related calculations as of December 31, 2020 and 2019, the methods to calculate net of reinsurance results and the limits which are used for the big claims eliminations are disclosed in Note 17.

Reinsurance agreements

Reinsurance agreements are the agreements enforced by the Company and the reinsurer, in exchange for a certain compensation, to cede the premiums and losses which may occur in relation to one or more insurance policies produced by the Company. The Company has excess of loss, surplus and proportional quota-share agreements in accordance with the branches in which it operates. Within the framework of excess of loss agreements, the ceded premiums are accounted for on accrual basis over the relevant period. The revenues and liabilities due to premium and claim ceded under other annual reinsurance agreements are also accounted for on the same basis.

**NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020**

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.16 Insurance and investment contracts (Continued)

Reinsurance agreements (Continued)

The Company has surplus reinsurance agreement in fire, marine, engineering and other accident branches and annual proportional quota-share reinsurance agreement for motor branches. Besides, The Company has excess of loss agreements in fire, marine and engineering branches.

Motor quota-share agreement is based on the transfer of written premiums and paid claims during the period covered by the agreement, and portfolio transfer is performed for premium and outstanding claim reserves by the end of each period. For surplus agreements, which work on a run-off basis, the liability of the reinsurers continue for the underwriting year at the policy period when the claim occurred. In addition, the Company has facultative reinsurance agreements signed separately for certain risks based on certain policies.

Premiums Transferred to Social Security Institution

The collection and settlement of expenses with respect to the medical care related services provided to the injured people due to the traffic accidents have been regulated by Article 98 of Road Traffic Act numbered 2918 altered by Article 59 of "The Law on Restructuring of Some Receivables and Changes in Social Security and General Insurance Law and Other Laws and Law Decrees" (the "Law") numbered 6111 and dated February 25, 2011. In this context, all the traffic accident related medical care services provided by any public or private health institution will be covered by Social Security Institution ("SSI") regardless of social security status of the injured. Besides, in accordance with the temporary Article 1 of the Law, all of the expenses with respect to the traffic accident related medical care services provided before enforcement of the Law, will also be covered by SSI. Within this framework, the Group is required to cede a certain amount of premiums to be determined in accordance with the Regulation and the Communiqué numbered 2011/17 to SSI in relation to policies issued as of February 25, 2011 the notice numbered 2012/3 and the communiqué numbered 2012/6 in "Compulsory Transportation", "Compulsory Traffic" and "Compulsory Motor Personal Accident" branches regarding the expenses with respect to the traffic accident related medical care services provided after enforcement of the Law.

Based on the aforementioned regulations, the Company has calculated the amount of the premiums to be ceded to SSI in January 1 - December 31, 2020 account period as TL 144,624,135 (January 1 - December 31, 2019: TL 135,165,977) and an unearned premium reserve amounting to TL 82,349,652 as of December 31, 2020 (December 31, 2019: TL 76,801,473); classified under "Ceded Premiums".

However, in the Board of Directors meeting of The Association of the Insurance and Reinsurance Companies of Turkey dated September 22, 2011 and numbered 18, it was decided to appeal Council of State for the "suspense of execution" and "cancellation" of the Regulation and the Communiqué numbered 2011/17; and the cancellation of related provisions of the Law as being contradictory to the Constitution. The legal procedures are in progress as of the date of the preparation of the financial statements.

2.17 Insurance contracts and investment contracts with discretionary participation feature

None (December 31, 2019: None).

NOTES TO THE FINANCIAL STATEMENTS

AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.18 Investment contracts without discretionary participation feature

None (December 31, 2019: None).

2.19 Borrowings

As of December 31, 2020, the Company has an interest free loan in the amount of TL 13,065,843. The loan has a maturity of one day and is accounted in "Other Financial Liabilities" in the financials (December 31, 2019: TL 12,806,817).

2.20 Current and deferred income tax

The Company is subject to Turkish corporate taxes. Provision is recognized in the accompanying financial statements for the estimated charge based on the Company's results for the years and periods. Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

In accordance with the regulation numbered 7061, published in Official Gazette on December 5, 2018, " Law on the Amendment of Some Tax Acts and Some Other Laws", corporate tax rate for the years 2018, 2019 and 2020 has increased from 20% to 22%. Therefore, the deferred tax assets/liabilities in December 31, 2020 are calculated with 20% tax rate.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax assets and liabilities are determined using tax rates and tax laws that have been enacted or substantively enacted by the statement of financial position date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. Deferred income tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

2.21 Employee benefits

The Company accounts for its liability related to employment termination and vacation benefits according to "Turkish Accounting Standards Regarding Employee Benefits" ("IAS 19") and classifies in statement of financial position under the account "Provision of Employment Termination Benefits".

According to the Turkish Labor Law, the Company is required to pay termination benefits to each employee whose jobs are terminated except for the reasons such as resignation, retirement and attitudes determined in Labor Law. The provision for employment termination benefits is calculated over present value of the possible liability in scope with the Labor Law by considering determined actuarial estimates.

2.22 Provisions

Provisions are recognized when the Company has a present obligation as a result of a past event, and it is probable that the Company will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognized as provision is the best estimate of the consideration required to settle the present obligation at the statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. If provision amount is measured by the cash flows estimated to settle the present obligation, its carrying amount will be equal to the present value of such cash flows.

NOTES TO THE FINANCIAL STATEMENTS

AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.22 Provisions (Continued)

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Liabilities that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity are classified as contingent liabilities and not included in the financial statements (Note 18).

2.23 Revenue recognition

Written premium

Written premiums represent premiums on policies written during the year, net of cancellations. Premium income is recognized in the financial statements on accrual basis by allocating the unearned premium provision over written premiums.

Reinsurance commissions

Commission income received in relation to ceded premiums to reinsurance companies is accrued in the related period and classified in technical part under operating expenses in the income statement. Reinsurance commission income is recognized in the financial statements on an accrual basis by allocating the deferred commission income over commissions received.

Claim recovery and salvage income

The Company recognizes the subrogation and salvage receivables, as limited to the coverage amount of the debtor insurance company, provided that the claim payment has been performed, the acquittance or the statement of payment has been received from the policyholders; and related individuals or insurance companies have been notified. A provision is recorded for those receivables which are not collected from insurance companies after six months and from individuals after four months following the payment of claim.

Dividend income

Dividend income is recognized as an income in the financial statements when the right to receive payment is established.

2.24 Interest income and expense

Interest income and expenses are accounted on an accrual basis in the related period's income statement. Interest income includes income gains from the coupons of the fixed return investment instruments and valuation of discounted government bonds based on internal rate of return method.

2.25 Dividend distribution

Listed companies distribute dividend in accordance with the Communiqué No. II-19,1 issued by the Capital Market Board (CMB) which is effective from February 1, 2014.

NOTES TO THE FINANCIAL STATEMENTS

AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

2. Summary of significant accounting policies (Continued)

2.25 Dividend distribution (Continued)

Companies distribute dividends in accordance with their dividend payment policies settled and dividend payment decision taken in general assembly and also in conformity with relevant legislations. The communiqué does not constitute a minimum dividend rate. Companies distribute dividend in accordance with the method defined in their dividend policy or articles of incorporation. In addition, dividend can be distributed by fixed or variable installments and advance dividend can be paid in accordance with profit on interim financial statements of the Company.

In accordance with the Turkish Commercial Code (TCC), unless the required reserves and the dividend for shareholders as determined in the article of association or in the dividend distribution policy of the company are set aside, no decision may be made to set aside other reserves, to transfer profits to the subsequent year or to distribute dividends to the holders of usufruct right certificates, to the members of the board of directors or to the employees; and no dividend can be distributed to these persons unless the determined dividend for shareholders is paid in cash.

2.26 Derivative financial instruments

The Company uses foreign currency swap contracts. The Company uses end of period market exchange rates and interest rates to calculate market value of foreign exchange swap contracts. As of December 31, 2020, there is a registered financial instruments amounting to TL 121,308,014 which costed TL 126,660,021 (December 31, 2019: amounting TL 1,085,032,639, costed TL 1,114,629,998).

As of December 31, 2020, the Company has accrued loss of TL 5,352,006 arising from valuation of derivative financial instruments (December 31, 2019: 29,597,359 loss).

3. Critical accounting estimates and judgements

Preparation of financial statements requires the use of estimations and assumptions which may affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the statement of financial position date and reported amounts of income and expenses during the financial period. Accounting estimates and assumptions are continuously evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under current circumstances. Although the estimations and assumptions are based on the best knowledge of the management for existing events and operations, they may differ from the actual results.

The estimation of the ultimate liability for technical expenses that can be incurred for the existing insurance contracts is one of the most critical accounting estimates. Estimation of the insurance liabilities, by nature, includes the evaluation of several uncertainties.

Impact of Covid - 19

The impact of Covid-19 (Coronavirus) pandemic to the Company's operations and financial results has been monitored and actions have been immediately taken for the Company to mitigate the impacts of the pandemic. In connection with the Covid-19 pandemic and parallel to the current conditions/slowdown in the global and Turkish economy. In the meantime, the Company has taken measures for savings on operational and capital expenditures. Cash management strategies have been reviewed for a stronger liquidity position.

NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

3. Critical accounting estimates and judgements (Continued)

Impact of Covid – 19 (Continued)

In preparation of the condensed interim consolidated financial statements as of December 31, 2020, the Company has assessed the possible impacts of Covid-19 pandemic on the financial statements and reviewed the critical estimates and assumptions. Within this scope, the Company has tested the financial assets, tangible and intangible assets for a possible impairment and no impairments were identified. The Company has also tested the assumptions for the measurement of insurance liabilities.

In accordance with the announcement issued on April 29, 2020, by the Ministry of Treasury and Finance - General Directorate of Insurance, the sixth clause of the article 4, titled "Principles for the determination of insurance premiums" of the Regulation on the Principles of Compulsory Financial Liability Tariffs, Undersecretary of Treasury may impose special rules for the sharing of premiums and claims among insurers with high risk. The premium of these insured is determined by the Undersecretary of Treasury, based on provision; it has been decided to extend the validity period of the policies in the scope of MTPL risk insured pool with an expiry date between April 30, 2020 and May 31, 2020 for a period of 1 month without additional premium.

4. Management of insurance and financial risk

Insurance risk

Insurance risk is the probability of risk exposure that is covered under any insurance contracts and the uncertainty of the magnitude of the claims in relation to the risk exposed. Due to the nature of insurance transactions, risks are incidental and hard to anticipate. Maximum risk that the Company bears is limited to the coverage amount specified in the insurance contract.

The Company has adopted central risk assessment policy and this policy is applied in relation to the Company's specified operations and limitations. On principle, in risk assessment, potential claims are measured based on the past experience, similar risk comparisons and risks in relation to production process. Location, geographical area, field of activity and fire and theft measures are also key issues used in the assessment of the insured risk.

The Company's gross insurance guarantees given to insurees are summarized as below:

	December 31, 2020	December 31, 2019
Motor Third Party Liability	53,797,363,591,986	30,947,452,871,905
Health	6,679,519,586,938	19,184,808,633,587

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

4. Management of insurance and financial risk (Continued)**(a) Market risk****i. Cash flow and market interest rate risk**

The Company is required to manage its interest rate risks due to price fluctuations in its financial instruments arising from changes in interest rates. The Company's sensitivity to interest rate risk is related to the mismatch in maturities of its assets and liabilities. Interest rate risk is managed by offsetting the assets that are affected by the interest rate fluctuations against the liabilities in same nature.

	December 31, 2020	December 31, 2019
Total		Effect on profit and profit reserves
Market interest rate increase / (decrease)		TL

-% 1	2,304,606	7,942,645

ii. Foreign currency risk

The company is exposed to foreign currency risk through the impact of rate changes at the translation of Turkish Lira pertaining to foreign currency denominated assets and liabilities. These risks are monitored by the analysis of exchange rate position. The details of the Company's foreign currency denominated assets and liabilities as of December 31, 2020 and 2019 are disclosed below:

December 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

4. Management of insurance and financial risk (Continued)

(a) Market risk (Continued)

ii. Foreign currency risk (Continued)

Sensitivity to foreign currency risk

The Company's sensitivity to a 10% increase/decrease in USD and Euro currencies are presented below. Sensitivity analysis only includes foreign currency denominated monetary assets outstanding at the end of period and indicates the effects of 10% changes in exchange rates. Positive value indicates an increase in profit/loss and other equity items.

Total	December 31, 2020		December 31, 2019	
	USD Effect	EUR Effect	USD Effect	EUR Effect
Profit / Loss Increase	16,886,161	6,801,248	10,913,037	5,177,297
Profit / Loss (Decrease)	(16,886,161)	(6,801,248)	(10,913,037)	(5,177,297)

iii. Price risk

The Company is exposed to price risk due to its investments in fair value price of marketable securities. Securities are held for strategical purposes rather than trading purposes. These investments are not actively traded by the Company.

As of the reporting date, if data used in the valuation method is increased/decreased by 10% and all variables remain fixed, since the Company's equity investments are classified as available for sale assets and if they are not disposed of or impaired, net profit/loss would not be affected.

Total	December 31, 2020	December 31, 2019
	Effect on financial assets available for sale	
Price increase / (decrease)		
+10%	148,079,045	73,763,135
-10%	(148,079,045)	(73,763,135)

(b) Credit Risk

Credit risk is the risk that counterparties may be unable to meet the terms of their agreements. Credit risk is managed by guarantees received and procedures applied for the selection of the counterparties. Limits and guarantees are determined based on the assessment of the respective party's financial ability and trading capacity. The Company is exposed to credit risk in Turkey because it mainly performs its operations in Turkey.

As of December 31, 2020, the Company has presented its receivables from insurance operations, guarantees received for these receivables and provision for doubtful receivables in Note 9.

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

4. Management of insurance and financial risk (Continued)

(c) Liquidity risk

Liquidity risk is the possibility of non-performance of the Company's due liabilities. Events that give rise to funding shortages, such as; market deteriorations and decrease in credit ratings, are the main reasons of liquidity risk. The Company manages its liquidity risk through having adequate cash and cash equivalents in order to fulfill its current and possible liabilities by allocating its funds.

The company implements strategies and policies to ensure that liquidity risk is managed effectively due to the Coronavirus (Covid-19) outbreak worldwide.

The maturity analysis of financial assets and liabilities as of December 31, 2020 is as follows:

December 31, 2020	Up to 1 month	1 - 3 months	3 months to 1 year	1 - 5 years	5 years and over	No maturity	Total

4. Management of insurance and financial risk (Continued)

Fair value of the financial assets

Fair value is the amount for which an asset could be exchanged or a liability settled between knowledgeable, willing parties in an arm's length transaction in accordance with market conditions.

The Company determines the estimated fair value of its financial instruments by using the current market information and appropriate valuation methods. Additionally, ability to estimate the market values through assessing the market information requires interpretation and judgment. As a result, the estimations presented herein cannot be an indicator of the amounts obtained by the Company in a current market transaction.

Fair Value Hierarchy

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation, and is best evidenced by a quoted market price, if one exists. Fair value measurements are performed in accordance with the following fair value measurement hierarchy.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that is not based on observable market data (that is, unobservable inputs).

4. Management of insurance and financial risk (Continued)

Capital management

The Company’s objective in capital management is to safeguard the Company’s ability to continue as a going concern so that it can continue and to protect shareholder and corporate partners’ benefits while sustaining the most effective capital structure in order to reduce capital costs.

The Company measures its adequacy semi-annually in accordance with the Decree “Measurement and Assessment of Capital Adequacy of Insurance and Reinsurance Companies and Pension Funds” published in the Official Gazette No: 26761 on January 19, 2008. The Company management is of the opinion that the necessary equity capital adequacy has been achieved, considering the equity movements for the accounting period between January 1, - December 31, 2020, as of December 31, 2020

5. Segment information

Information related to the operational reporting made by the Company to the chief operating decision-maker in accordance with the “IFRS 8 - Operating Segments” is disclosed in this part.

Numerical limits in “IFRS 8 - Operating Segments” is also considered as the reporting to the chief operating decision-maker in the determination of segments and the premium production and net technical income of the segments are considered while determining a separate operating segment.

The Company has been operating in Turkey. Since the effect of the foreign operations on financial statements is extremely low, geographic segment information is not given.

NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

16. Earning Per Share (Continued)***Dividend payment - Covid-19***

According to the Law No. 7244 published in the Official Gazette dated April 17, 2020, the Law on Reducing the Effects of the New Corona Virus (Covid-19) on economic and social life and with the amendment made in the Turkish Commercial Code, it has been decided that maximum twenty-five percent of the net profit of the year 2019 can be distributed as dividends until September, 30, 2020. If the General Assembly has decided to distribute dividends for the fiscal year of 2019, but the shareholders have not yet been paid or partial payments have been made, payments for the portion exceeding twenty five percent of the net profit for 2019 will be postponed until the end of the specified period. In the Ordinary General Assembly Meeting held on March 11, 2020, the Company, in accordance with the profit distribution proposal of the Board of Directors, distributed its gross profit share of 201,960,000 TL from the net profit of 366,358,436 TL for the 2019 fiscal period in cash on March 13, 2020.

Provision for employment termination benefits	9,095,078	7,052,711
Total	9,095,078	7,052,711

NOTES TO THE FINANCIAL STATEMENTS
AS AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira ("TL") unless otherwise indicated.)

20. Provision for retirement benefit obligation (Continued)

Under the terms of Turkish Labor Law, the Company is required to pay employment termination benefits to each employee who has qualified for such payment. Also, employees are entitled to retirement pay provisions subsequent to the completion of their retirement period by gaining a right to receive retirement payments in accordance with the amended Article 60 of the applicable Social Insurance Law No: 506 and the related Decrees No: 2422 and 4447 issued on March 6, 1981 and August 25, 1999, respectively. Some transitional provisions related to pre-retirement service term was excluded from the law since the related law was amended as of May 23, 2002.

Employee termination benefits provisions are legally not a subject of funding. The provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of employees. IAS 19 ("Employee Benefits") requires actuarial valuation methods to be developed to estimate the enterprise's obligation under defined benefit plans. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

The principal assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at December 31, 2020 and December 31, 2019, the provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. As of December 31, 2020, the provisions at the respective balance sheet dates have been calculated assuming an annual inflation rate of 12.10% (December 31, 2019: 15.40%) and a discount rate of 14% (December 31, 2019: 11.70%), resulting in a real interest rate of 4% (December 31, 2019: 4%). The anticipated rate of forfeitures is considered and estimated rate of the Company's retirement pay is also taken into account.

However, during this estimation, the employee termination benefits mentioned in subparagraph 5 of paragraph 1 of article 14 of the Labor Law numbered 1475 to be made in accordance with other conditions excluding the ages stipulated in clauses (a) and (b) of subparagraph A of paragraph one of article 60 of the Law numbered 506 or due to termination of employees on their own will after having completed the insurance period required for retirement pension (15 years) and the number of premium payment days (3600 days) have been excluded from the payments to be incurred by the Company.

As the maximum liability is updated semi-annually, the maximum amount of TL 7,639 effective from January 1, 2021 has been taken into consideration in calculation of provision from employment termination benefits (As of January 1, 2020, the ceiling on severance pay is TL 6,730 per month). Movement of employee termination benefits provisions are presented in the statement below:

	2020	2019
Opening balance, January 1	7,052,711	6,503,684
Charge for the period	1,663,144	1,749,671
Actuarial gain/loss	1,166,238	1,145,242
Retirement payments	(787,015)	(2,345,886)
Closing balance, December 31	9,095,078	7,052,711
