Explanations	

Within the scope of our responsibility to leave a green and clean world to future generations and our Company's sustainability principles, it has been decided at the Board of Directors' meeting on 16 February 2022 to install Solar Power Plants (SPPs) which will generate an annual energy production of 28,000 MWh on the roofs of the buildings in Adana premises where the existing facilities are located. The investment is planned to be commissioned in 2022.

Our company's efforts to increase its investments in renewable energy continues.

In the event of any discrepancy between the Turkish and English versions of this disclosure statement, the original Turkish version shall prevail. SASA disclaims all warranties and makes no representations about the accuracy or completeness of the English translation and assumes no liability for any errors, omissions or inaccuracies that may arise from use of this translation.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
