Explanations	

Taking into consideration the former generation Boeing 737-800 aircraft leaving the Company fleet and in line with our fleet planning targeting a young fleet with a low fuel consumption, low unit cost performance and low carbon emissions, we reached an agreement with Airbus S.A.S. to amend the Airbus Order, initially executed in 2012 and later amended in 2017 and 2021 to cover a total of 106 new aircraft, thereby placing a firm order for additional eight Airbus 321neo aircraft. The delivery of the said additional eight aircraft is expected to take place in 2025, which will amend the current Airbus Order delivery plan reaching out to 2025. This Material Disclosure Announcement was prepared in Turkish and in English. In case of any discrepancy between the two versions, Turkish disclosure will prevail.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
