Explanations	

In response to the news in some media organs, our explanation with regard to Capital Markets Board's Communiqué II-15.1, Article 9 on "Notification About News or Rumours" is stated below

As known by the investor community, openings/closings of stores in the retail sector is a standard practice among the sector companies in order to protect their profitability. On a Teknosa specific point of view, our company has made 29 openings/42 closings in 2015 and 49 openings/52 closings in 2014. As of first 6 months of this year, the number stands at 15 openings/33 closings.

As of this moment, although we are continuing to evaluate our store network based on the latest sectoral outlook, there is no decision of the board in order to close 76 stores as stated in those news.

If any development on the subject occurs, it will be shared with the public.

***In contradiction between the Turkish and English versions of this public disclosure, the Turkish version shall prevail.***

We proclaim that our above disclosure is in conformity with the principles set down in "Material Events Communiqué" of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we're personally liable for the disclosures.
