Explanations	

This is the disclosure regarding the receivable collections made until 01.08.2019, starting from 30.06.2019, which is the end date of the accounting period regarding the financial statements of our Company for 6 months.

Throughout 2019, meticulous efforts were carried out both to open up new export markets and to deepen our existing presence in the export markets. In the domestic market, as it has been since our establishment, the intensive delivery schedule that we maintain in line with the demands and needs of our army and other domestic customers has been successfully followed.

As a result of these efforts, our Company's total receivable collection in July exceeded TL 690 Million (USD 122 Million), well above the average of the first 6 months of 2019.

We hereby announce this to the public.
