<b>Announcement Content</b>	
<b>Explanations</b>	

Pursuant to our material event disclosure dated 25.03.2020, Vestel Elektronik will resume its production activities as of April 6, which were temporarily suspended during March 30 and April 5 within the framework of the precautions taken to reduce the effects of the global Coronavirus pandemic to protect the health of employees and the public. The plants will start operations with a lower capacity due to measures taken such as rescheduling of shift hours, reduction in the number of employees working per shift, disinfection of work areas during the breaks between the shifts and maintaining social distance in physical working conditions. If circumstances and developments require, an application for short-term work allowance will be considered.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
