Explanations	

TOFAŞ Board of Directors has decided to extend the production period of the Doblo model manufactured in the TOFAŞ Bursa factory by 1 year and to start investment studies. In this context, The project lifecycle period which was announced to the public as 2009-2021 with the last related disclosure dated 28.05.2013, is extended until the end of 2022. In the period of 2009-2020, approximately 1,1 million vehicles production were realized within the scope of the project, and with the contribution of the new investment and extension of time, approximately 1 million 250 thousand vehicle production are targeted during the whole project lifecycle, 75% of which are for export markets. In this context, it is planned to make an investment of approximately 28 million Euros until the end of 2021, and the production of vehicles with new engine is planned to start in the middle of 2021.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
