Explanations	

Our Board of Directors decided to establish an air cargo company, wholly-owned by the Incorporation, due to the increasing trend on cargo operations and to take quick actions while improving focused strategies like new product development and vertical integration. The newly established Company will strengthen our position among the most crucial players in the cargo sector, by making the most of Turkish Cargo's unique competitive advantage and create a separate platform for potential strategic foreign partnerships in the future.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
