Explanations	

Waerme Hamburg GmbH has ordered ENKA – Uniper JV on December 15, 2021 for EUR 336 million under the Dradenau Combined Heat and Power Plant project and with the initial works the total project reached to EUR 341 million. The project is a turnkey construction of combined heat and power plant of approximately 180 MW electric and 260 MW district heating capacity at Dradenau in Hamburg, Germany.

ENKA – Uniper JV is to perform the engineering, procurement, construction and commissioning (EPCC) works within the framework of this contract and the power plant is expected to be operational in December 2024.

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
