### Financial Highlights

- ✓ In Q3 2021, total revenues increased by 39% to TL 1,498 million (Q3 2020: TL 1,075 million). The continued robust uptick in domestic patient revenues quarter-on-quarter and the accelerated recovery of foreign medical tourism business have been the main drivers for the strong performance. Overall, 9M 2021 revenues increased by 44% to TL 4,040 million (9M 2020: TL 2,814 million).
- ✓ In Q3 2021, the adj. EBITDA (w/o fx impact) increased by 42% to TL 396 million, while adj. EBITDA (w/o fx impact) margin increased by 55 bps at 26.4%. In 9M 2021, the adj. Net profit allocated to equity holders of the parent was TL 18 million in Q3 2021 (Q3 2020: TL 4 million loss). Net debt decreased by TL 150 million compared to 2020. - ✓ Foreign Medical Tourism (FMT) revenue grew by 127% in Q3 2021 due to the low base effect triggered by the 22% contraction in Q3 2020 and the gradual openings of international flights this year.

- ✓ Liv Hospital VadIstanbul has started accepting patients on May 24, 2021 in Istanbul, Sariyer with a capacity of 125 beds. In addition to domestic patients, this hospital will serve foreign patients from European and Balkan countries, the Middle East and Arab countries.

**Dr. Muharrem Usta, Chairman and Chief Executive Officer of MLP Care, commented:**

*“COVID-19 pandemic, which started in our country in March 2020, has created an unprecedented health and economic emergency globally. Throughout this period we worked with great devotion as we have the largest established footprint amongst the private healthcare providers in Turkey and bear a huge responsibility to our community. We continued to improve our operational performance on the back of diligent cost discipline, strengthened our cash position, and reduced our leverage ratio. We eliminated the impact of FX volatility from our financials by converting our FX denominated loans into TL and closing our open FX position against any potential macro headwinds.*

*The pent-up demand for health services, has been strong and resulted in high domestic and international patient traffic this year. In our group, digitalization projects continue at a full speed. Through our digital personnel planning system in all hospitals, we optimize staff allocation, and personnel working hours. With Robotic Process Automation (RPA), we aim to fully automate all invoice processes, thus directing staff time to higher value-added jobs. We aim to complete our digital supply chain program and deploy in all our hospitals next year. With this project, we will provide better inventory management and create additional cost savings. We believe that these efforts will make a positive contribution to our efficiency and therefore profitability in the future.*

The adj. EBITDA number increased by 39.5% to TL 1.068 million in 9M 2021. On the other hand, adj. EBITDA margin decreased by 77 bps to 26.4% due to decreased effect of operational FX income in total cost.
