

SASA Polyester San. 2021 Sustainability Principles Compliance Framework and Compliance Status

FULLY
PARTIALLY
UNRELATED

*Compliance status is indicated by color codes.

A. GENERAL PRINCIPLES					
No	Title	Policy Statement	Compliance Status*	Explanation	Related Links
1	A1. Strategy, Policy and Objectives	The Board of Directors determines ESG material issues, risks and opportunities and establishes appropriate ESG policies. In terms of the effective implementation of the policies that are discussed; Intra-partner directives, business procedures, etc. can be prepared. The Board of directors takes the decision for these policies and announces them to the public.	Fully	Our Board of Directors has identified ESG material issues, risks and opportunities Policies have been established with the decision of the Board of Directors in accordance with these, and procedures and guidelines have been prepared to implement these policies. All our policies are posted on our website.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari

2	A1. Strategy, Policy and Objectives	Determines the Partnership Strategy in line with ESG policies, risks, and opportunities. It sets and publicizes its short and long-term objectives in line with the partnership strategy and ESG policies.	Partially	Sustainability Strategy has been determined in line with the UN's Priority Development Goals. We continue to work on our partnership strategy and our short and long-term ESG targets.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari/2020-surdurulebilirlik-raporu	
3	A2. Implementation / Monitoring	Determines and publicizes the committees/units that are responsible for the implementation of ESG policies. The responsible committee/unit reports to the Board of Directors the activities carried out within the scope of the policies at least once a year and in any case within the maximum periods determined for the disclosure of the annual activity reports to the public in the relevant regulations of the Board.	Fully	The Sustainability Committee responsible for the implementation of the ESG Policy was established on 13.12.2021. The Committee has started its activities in accordance with the Charter of the Sustainability Committee, which covers the tasks, structures, and responsibilities.	http://www.sasa.com.tr/yatirimci-iliskileri/kurumsal-yonetim/yonetim-kurulu-komiteleri	
4		Creates implementation and action plans in line with the determined short- and long-term goals and announces them to the public.	Partially	The current situation analysis and target planning have been started to create short- and long-term goals. Studies have been started in line with the methods determined by the Science-Based Targets Initiative (SBTI) for our carbon reduction target, and a commitment has been made to set targets.	https://sciencebasedtargets.org/companies-taking-action	
5		Determines the ESG Key Performance Indicators (KPI) and explains them comparatively based on years. Provides KPIs with local and international industry comparisons if verifiable data is available.	Fully	ESG KPIs are presented in our sustainability report as a benchmark for 2018-2019-2020. Our KPG data for 2021 will also be given in the 2021 Sustainability Report, which will be published in May 2022.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari/2020-surdurulebilirlik-raporu	

6	A2. Implementation / Monitoring	Explains innovation activities that improve sustainability performance for business processes or products and services.	Fully	All Departments, especially the R & D department, continue to improve their activities related to the sustainability of products and services. We have R&D activities based on eco-innovation, renewable energy feasibility studies for emission reduction, energy efficiency projects, zero waste applications, as well as innovative projects such as energy production from waste and water recycling.	http://www.sasa.com.tr/surdurulebilirlik/cevresel-surdurulebilirlik	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-urun-yonetimi
7	A3. Reporting	It reports and publicizes its sustainability performance, targets and actions at least once a year. Announces information on sustainability activities within the scope of the annual report.	Fully	As of 2020, we have started to publish our SASA Sustainability Report. All information regarding our sustainability activities is disclosed within the scope of this report. The Sustainability Report containing the data for 2021 will be ready in May 2022.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
8		It is essential to share information that is important for stakeholders to understand the position, performance, and development of the partnership in a direct and concise manner. It can also disclose detailed information and data on the corporate website and prepare separate reports that directly meet the needs of different stakeholders.	Fully	Within the framework of the principles described in the SASA Information Policy, our company's corporate website, financial reports, annual reports, sustainability reports, KAP notifications provide information and data transparently and openly to its stakeholders.	http://www.sasa.com.tr/yatirimci-iliskileri/kurumsal-yonetim/politika	https://www.kap.org.tr/tr/sirket-bilgileri/ozet/1068-sasa-polyester-sanayi-a-s
9		Take the utmost care in terms of transparency and reliability. Within the scope of the balanced approach, it explains all kinds of developments on material issues in explanations and reports in an objective way.	Fully	SASA shares all the necessary information transparently and reliably on its corporate website. It objectively describes the developments on priority issues.	http://www.sasa.com.tr/surdurulebilirlik/stratejimiz	

10	A3. Reporting	It gives information about which of its activities are related to the United Nations (UN) 2030 Sustainable Development Goals.	Fully	Information on which of our activities are related to the United Nations (UN) 2030 Sustainable Development Goals is provided on our website and in our 2020 Sustainability Report.	http://www.sasa.com.tr/surdurulebilirlik/stratejimiz	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari
11		Makes a statement regarding lawsuits filed and/or concluded against environmental, social, and corporate governance issues.	Unrelated	In 2020, there were no lawsuits filed and/or concluded against SASA on ESG issues.		
12	A4. Verification	If it is verified to independent third parties (independent sustainability assurance providers), it discloses its sustainability performance measurements to the public and strives to increase these verification processes.	Partially	Our carbon emissions for 2020 have been calculated within the scope of ISO 14064 standard and the verification process has been completed. The verification report can be accessed from Appendix-3 of our 2020 sustainability report. All the management systems certificates (ISO 9001, ISO 14001, ISO 50001, ISO 45001, ISO 27001) that we have applied within the scope of sustainability are published on our website. Our 2021 Sustainability Report will be prepared in accordance with GRI standards and is intended to be verified with independent sustainability.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	http://www.sasa.com.tr/surdurulebilirlik/kurumsal-yonetisim/iso-sertifikalari

B. ENVIRONMENTAL PRINCIPLES						
No	Title	Policy Statement	Compliance Status*	Explanation	Related Links	
13	B. Environmental Principles	Explains the policies and practices, action plans, environmental management systems (known as ISO 14001 standard) and programs in the field of environmental management.	Fully	Our policies, practices, and actions in the field of environmental management have been explained in the 2020 Sustainability Report. Our company has ISO 14001 Environmental management systems.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	http://www.sasa.com.tr/surdurulebilirlik/kurumsal-yonetisim/iso-sertifikalari
14		Complies with environmental laws and other relevant regulations and explains them.	Fully	SASA, our compliance with environmental laws and other relevant regulations is disclosed on our website and in the Sustainability Report. Our facilities have "Environmental Permit and License Certificate", "Environmental Management Unit" documents, Zero Waste Certificate, EIA, ESIA reports, Coastal Facility Hazardous Material Compliance Certificate for İskenderun facility.	http://www.sasa.com.tr/surdurulebilirlik/cevresel-surdurulebilirlik	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari
15		Explains the limitations related to the limit of the environmental report to be included in the report to be prepared within the scope of Sustainability Principles, the reporting period, the reporting date, the data collection process and the reporting conditions.	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
16		Describes the highest level of responsibility, relevant committees and their tasks in the partnership on the topic of the environment and climate change.	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	

17	B. Environmental Principles	Describes the incentives offered by it for the management of environmental issues, including the achievement of goals.	Partially	To achieve our sustainability goals, the performance indicators that have been determined have been included in the individual goals of all relevant departments. It is aimed to create an incentive system for the management of environmental issues in 2021.		
18		Explains how environmental problems are integrated into business goals and strategies.	Fully	In accordance with the requirements of ISO 14001 and relevant Environmental Legislation, we create annual goals and plans for solving issues involving environmental risk. We pay attention to the design of our new investments to minimize environmental risk during the design and engineering stages.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari/2020-surdurulebilirlik-raporu	http://www.sasa.com.tr/surdurulebilirlik/csypolitikalari
19		Describes the sustainability performances of business processes or products and services and their activities to improve this performance.	Fully	In our sustainability report, economic, social and environmental sustainability performance is shared, and projects made in line with our priority sustainable development goals are explained.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
20		It explains how it manages environmental issues not only in terms of direct operations, but also throughout the partnership value chain and how it integrates suppliers and customers into its strategies.	Fully	We have a total of four procedures and supplier approval forms for our supplier relations, and criteria are explained about how suppliers manage environmental issues. How suppliers and customers are integrated into strategies along the value chain is described in the 2020 Sustainability Report.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari/2020-surdurulebilirlik-raporu	

21	B. Environmental Principles	Explains whether it is involved in policy-making processes on environmental issues (sectoral, regional, national, and international), the associations, related organizations and non-governmental organizations that it is a member of in the field of environment, its business associations and the tasks it takes, if any, and the activities it supports.	Fully	Our company is a Member of the Board of Mediterranean Exporters' Associations and is a member of Adana and İskenderun Chambers of Commerce and Industry. We share our sectoral experiences and opinions by attending the meetings of these organizations. We also contribute to the preparation of policies, regulations and informative documents of relevant industry associations and groups.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari/2020-surdurulebilirlik-raporu	
22		Environmental indicators greenhouse gas (GHG) emissions (Scope 1 (Direct), Scope 2 (energy indirect), Scope 3 (other indirect), air quality, energy management, water and wastewater management, waste management, biodiversity impacts) in a manner comparable information about the environmental effects periodically in the light of reports.	Fully	Our performance on all relevant environmental indicators has been published in our 2020 Sustainability report.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari/2020-surdurulebilirlik-raporu	
23		It describes the details of the standard, protocol, methodology and base year that it uses to collect and calculate its data.	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
24		Describes the state of environmental indicators for the reporting year in comparison with previous years (increase or decrease).	Fully	Environmental indicators are presented in the 2020 Sustainability Report in comparison with 2018 and 2019.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	

25	B. Environmental Principles	It sets short-term and long-term goals to reduce their environmental impact and explains these goals. It is recommended that these goals be set based on science as recommended by the United Nations Conference of the Parties on Climate Change. It provides information about the subject if there is progress made in the reporting year according to the goals it has set earlier.	Partially	In order to measure our environmental impacts, our energy density, greenhouse gas density, hazardous waste footprint, water footprint, wastewater footprint are calculated and published in our 2020 Sustainability report. Annual targets are set to reduce our footprints in nature and our progress is presented. as of 2021, it is also aimed to set long-term science-based targets to reduce environmental impacts.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
26		Explains the strategy and actions to combat the climate crisis.	Partially	Our efforts towards our strategy and action plans to combat the climate crisis are continuing. Our strategy and actions will be detailed in our 2021 Sustainability report.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari http://www.sasa.com.tr/surdurulebilirlik/csypolitikaları	
27		Describes the programs or procedures for preventing or minimizing the potential negative impact of the products and/or services it offers; describes the actions of third parties to reduce the amount of greenhouse gas emissions.	Partially	All programs or procedures aimed at preventing or minimizing the potential negative impact of the products and/or services we offer are described in the 2020 Sustainability Report. We aim to report our actions aimed at reducing greenhouse gas emissions by third parties in 2021.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	

28	B. Environmental Principles	It explains the actions it takes to reduce its environmental impacts, the total number of projects and initiatives it carries out, and the environmental benefits/gains and cost savings it provides.	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
29		It reports the total energy consumption data (excluding raw materials) and explains the energy consumption in Scope-1 and Scope-2.	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
30		It provides information about electricity, heat, steam, and cooling produced and consumed in the reporting year.	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
31		Conducts studies on increasing the use of renewable energy, switching to zero or low-carbon electricity and explains these studies.	Fully	In our 2020 Sustainability report, explanations related to the use of biogas energy are given. In addition, we have additional renewable energy investment studies that are at the feasibility stage.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
32		Explains renewable energy production and usage data.	Fully	Related information has been shared in the 2020 Sustainability Report KPI tables.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
33		Makes energy efficiency projects and explains the amount of energy consumption and emission reduction through these studies.	Fully	In the 2020 Sustainability Report, the projects we have done, and the related quantitative information are given.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	

34	B. Environmental Principles	Reports taken from above ground or underground, used, recycled and the amount of water discharged, resources, and procedures (the source based on total water withdrawal, water shooting water sources affected by, percentage and total volume of water recycled and reused, etc.)	Fully	The 2020 Sustainability Report describes the content of the relevant code of principles.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari	
35		It explains whether its operations or activities are included in any carbon pricing system (Emissions Trading System, Cap & Trade or Carbon Tax).	Unrelated	SASA is not yet included in any carbon pricing system (Emissions Trading System, Cap & Trade or Carbon Tax).		
36		Describes the carbon credit information accumulated or purchased during the reporting period.	Unrelated	There are no carbon credits accumulated or purchased during the reporting period.		
37		Explains the details if carbon pricing is applied within the partnership.	Unrelated	There is no carbon pricing implementation in SASA between the facilities or between the industrial companies within Erdemoğlu Holding.		
38		It describes all mandatory and voluntary platforms where it discloses its environmental information.	Fully	SASA's corporate website and Sustainability Reports provide information about all mandatory and voluntary platforms disclosed by environmental information.	http://www.sasa.com.tr/surdurulebilirlik/surdurulebilirlik-raporlari
