**REPORT OF THE BOARD OF DIRECTORS
FOR THE PERIOD BETWEEN
1 JANUARY – 30 JUNE 2019**

Independent Auditor's Report on Review of Semi-Annual Report

To the Board of Directors of ASELSAN Elektronik Sanayi ve Ticaret Anonim Şirketi

We have been assigned to the review whether the financial information in the semi-annual report of ASELSAN Elektronik Sanayi ve Ticaret Anonim Şirketi ("the Company") and its subsidiaries (together "the Group") prepared as at 30 June 2019 is consistent with the reviewed interim condensed consolidated financial information. Management is responsible for the preparation of the semi-annual report. Our responsibility is to express a conclusion on whether the financial information provided in the semi-annual report is consistent with the reviewed interim condensed consolidated financial information on which we have expressed our conclusion dated 06 August 2019.

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410 "Review on Interim Financial Information Performed by the Independent Auditor of the Entity". Our review includes the assessment as to whether the financial information included in the semi-annual report is consistent with the reviewed interim condensed consolidated financial statements and other explanatory notes. A review is substantially less in scope than an audit conducted in accordance with Independent Auditing Standards, the objective of which is to express an opinion on the financial statements. Consequently, a review on the semi-annual financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to conclude that the accompanying financial information included in the semi-annual report is not consistent, in all material respects, with the interim condensed consolidated financial information and the information presented in the explanatory notes to interim condensed consolidated financial information.

Yeditepe Bağımsız Denetim Anonim Şirketi

1. Principles of Preparation

The interim report of the Board of Directors is prepared on the basis of Communiqué Series II, No: 14.1 “Principles of Financial Reporting in Capital Markets” dated 13 June 2013.

The report comprises the events took place during the period 1 January – 30 June 2019. The title of the main shareholder in the report is ASELSAN Elektronik Sanayi ve Ticaret A.Ş.

2. Company Information and Organizational Structure

The Company is a leading defense industry establishment developing advanced technology system solutions within land, air, naval and aerospace platforms.

The Company, being an establishment of Turkish Armed Forces Foundation (“TSKGV”), stands in a position of a technology center within the fields of design, development, manufacturing, system integration, modernization and after sales services of military and civil communication systems, avionics systems, electronic warfare and intelligence systems, radar systems, command and control systems, naval warfare systems, security systems, transportation systems, energy systems, traffic and automation systems, electro-optic systems and products.

The Company has been restructured under five Vice Presidencies that will carry the production and engineering tasks, which are; Communication and Information Technologies (“HBT”), Microelectronics, Guidance and Electro-Optics (“MGEO”), Defense Systems Technologies (“SST”), Radar, Electronic Warfare and Intelligence Systems (“REHİS”) and Transportation, Security, Energy and Automation Systems (“UGES”).

In order for General Management to fulfill planning at strategic level, pursuing and assessing functions in a more efficient way, four different Vice Presidencies have been constituted as Financial Management Vice Presidency, Corporate Management Vice Presidency, Technology and Strategy Vice Presidency and Business Development and Marketing Vice Presidency; in addition to these Vice Presidencies there are also Legal Affairs and Office Of The Private Secretary.

The Internal Audit Department and Board of Directors Planning and Coordination Management have been established under the Board of Directors.

The Company maintains production and engineering operations in Ankara, METU Teknokent and Teknopark Ankara; production and engineering operations in Macunköy, Akyurt and Gölbaşı settlements. General Management is located in Ankara Macunköy settlement. Furthermore, the Company maintains engineering operations in Istanbul Teknopark.

4. Main Factors That Affect the Performance, Investment and Dividend Policy of the Company

The Company carries on its business interests in defense industry as well as in civil industry. According to the latest data, globally, five countries which have the largest defense industry expenditures during 2018 are the USA, China, Saudi Arabia, India and France. Contrary to the decrease in the US defense spending in the last seven years, the exchange rate-adjusted total defense expenditures increased in 2018 compared to the previous year and reached 649 billion USD. In 2018, the 24-year upward trend in East Asia continued to increase by 4.1% and in Western Europe a 4-year upward trend continued by 1.4%. While there is no clear trend in the rest of the world, defense spending in Africa, Oceania, South East Asia, Eastern Europe and the Middle East decreased, while increased in Central America and the Caribbean, North America, South America, Central and South Asia, East Asia, Central Europe and Western Europe in 2018. As of 2018 year-end, Turkey's yearly defense expenditures reached its highest level with USD 18,97 Billion, and 2,5% of the Gross Domestic Product (GDP) is still comprised of defense expenditures. The ratio of defense expenditures over GDP stands steady while the number of Company's projects have increased by the years.

Due to the industry's nature defense projects are spread over years, furthermore a system project lasts approximately 4 to 5 years from its start to its delivery. As of 30 June 2019 long term plans which have been accordingly signed as contracts spread over years amounts to USD 10,2 Billion. The determination of target regions/countries and focusing on these markets for marketing and direct sales as well as engaging in joint productions, transfer of technology to/from international platform producers and strategic initiatives for sales to third countries are concurrent to our sustainable growth objectives. Our structure coincides with our objective to operate in civilian electronic fields which require high technology.

The Company's profit distribution policy is posted on www.aselsan.com.tr website under Investor Relations/ Corporate Governance/Policies. According to the policy, at least 10% of the net profit is planning to be distributed.

- At the Ordinary General Assembly Meeting held in 26 April 2019; in accordance with Article 519/(1) of the Turkish Commercial Code, TL 91.456.032,50 to be allocated as General Legal Reserves from the remaining distributable profit obtained after subtracting taxes and statutory obligation from Company's operating profit in 2018. Net distributable profit to the shareholders for the period, calculated in the framework of the profit distribution regulations and decisions of the Capital Markets Board is proposed as Gross profit, TL 174.000.000 (Kuruş 15,26 per share of TL 1 and 15,26 % on the basis of the capital) (net profit TL 147.900.000 – Kuruş 12,97 per share of TL 1 and 12,97 % on the basis of the capital) as in the form of cash,
- In accordance with Article 519/(2) of the Turkish Commercial Code, TL 11.700 Thousand to be allocated as General Legal Reserves,
- Remaining profit is to be allocated as Extraordinary Legal Reserves and distribution of the dividends to the shareholders are distributed in three equal installments on the dates of 19 June 2019, 18 September 2019 and 18 December 2019, were decided. First installment payment of the dividends was made on 19 June 2019

5. Risk Management Policies of the Company

The Company's Board of Directors performs in a transparent, accountable, impartial and responsible manner under Capital Markets Board regulations. The Chairman and Vice Chairman are elected among the Board of Directors members furthermore Board of Directors Committee Presidents and committee members are elected as well.

a. Corporate Risk Management

The Company's Corporate Risk Management Policy; aims to have the appropriate risk reaction against uncertainties threatening the corporate existence of the Company and protect the Company's corporate identity, its employees and the interests of its shareholders and related parties. Risk management has been an integrated part of the corporate management and information generated within the context of risk management process are integrated into decision-making mechanisms.

In order to identify the potential risks beforehand and to enable the management of these risks in compliance with the Company's risk-taking approach, an Early Detection and Management of Risk Committee which consists of the members of Board of Directors is active since 2012.

Through Corporate Risk Management practices, "top down" and "bottom up" approaches are applied together and risks that may affect the company's objectives are identified and evaluated along with the risk reactions and precautions to be taken. The reports prepared by the Management and Early Detection of The Risk Committee are presented to the Board of Directors and the Independent Audit Company. The insurable risks are evaluated and the risk is transferred to the outside of the company by means of insurance through cost-benefit analysis.

The risks which have been defined and prioritized in accordance with the opinion and suggestion company-wide and in the scope of the operations carried out by the committee are explained below:

i. Difficulty to Increase the Number and Variety of Customers

World's leading defense industry companies, who provide the major portion of the defense needs of their country, lack of customer diversification caused by selling to mainly a single customer. The main client of the Company is the Public Institutions and Organizations, especially the Turkish Armed Forces. This situation is accompanied by the fact that the activities of the Company are generally directed towards the public demands of our country.

It is aimed to reduce this risk by working on increasing the sales abroad and carrying the existing know-how to the civilian sectors.

ii. Insufficiency in the Number of Qualified Subcontractors and Suppliers

The main contractor companies play an important part in providing deepening to the industry. To build an effective supply chain; the creation of qualified subcontractors/suppliers is highly critical in terms of sector productivity and sustainability. For the Company, which works with a large number of domestic and foreign suppliers and subcontractors, it is of utmost importance to ensure material quality and supply continuity.

Having a strong subsidiary infrastructure is among the elements that will support The Company's business continuity, steady growth and global competitiveness. Besides, development of local subsidiary industry which is especially competent, reliable and value-added in the direction of national and local product development vision is important. In order to reduce the risk arising from the failure of suppliers and subcontractors to achieve the required technical competence, expertise, quality and performance, the performance of suppliers is continuously measured and analyzed, and also to improve this performance, the Company supports, developments and implementations trainings and programs.

iii. Changes in the Global Economy and Defense Spending

Global economic variations have significant impacts on the economic activities of the countries and cause changes in projected defense budgets. This situation may bring along the risks of the demands of domestic and foreign customers lower from the expected level and also may affect the operational and functional indicators.

The current and potential economic developments, the countries which the Company have either collaborated or/and exported, and the effect of these matters on the company have been followed and the projection regarding global development have been planned.

Financial precautions and strategies that will minimize the negative effects of current and possible economic developments are evaluated and implemented on constant basis.

b. Financial Risk Management

The financial risk in the financial risk management model of the Company have been identified as foreign exchange risk, interest risk, liquidity risk, credit risk and capital risk.

Within the scope of the financial risk management, exchange risk, interest risk, liquidity risk, credit risk and capital risk which can possibly affect the assets and liabilities of the Company are defined, measured, managed and reported. Therefore, the adverse effects of the changes in financial markets on the Company's financial performance are minimized. Financial derivatives are also utilized to minimize the risks. Moreover, financial risk management techniques have been put into use in order to protect the return on the project from the effects of the inconsistency of cash inflows and outflows on the basis of currency which was formed within the projects and the deviation of the planned cash flow dates.

The Company's subsidiaries and affiliates utilize financial risk management within the scope of their own management policies.

i. Foreign Exchange Risk and Management Policy

The main principle of the foreign exchange management is to minimize the impact of the foreign exchange fluctuations by preventing foreign exchange short or long positions.

To define foreign exchange risks with taking the periodical foreign exchange position into consideration; loss and profits which would arise from upwards or downwards changes are calculated and the possible impacts of the foreign exchange risk incurred are measured. In this context, the possible changes in foreign currency-sensitive assets and liabilities for prospective interim financial periods are considered and the foreign currency position is estimated. The currency of the contracts signed between the company and its clients are mainly currencies other than the functional currency which is Turkish Lira. Advances can be made in different periods of the contracts so that the work can be carried out during the contracts, and the advances received can be in currencies other than the functional currency. All order advances taken and given apart from the functional currency are not subject to valuation according to the TAS 21 "The Effects of Changes in Foreign Exchange Rates Standard".

Due to the nature of the contracts, it is inevitable that there will be changes in the currencies during the term of the contract. As a result of the exchange rate fluctuations; there could be profit/loss from delivery, advance offsetting or collection within the scope of a foreign exchange rate based contract. Methods which are used to manage the exchange rate risk are on-balance sheet (structural) methods. On-balance sheet (structural) methods are utilized in order to manage the exchange rate risk. In order to keep foreign currency position at desired levels and to ensure currency conformity, applications such as the use of fixed rate TL denominated credit instead of foreign currency denomination, the determination of the contract currency according to the weighted currency of the contract and the signing of the contract in terms of the main contract currency with subcontractors within the scope of contracts.

ii. Interest Risk and Management Policy

In determining the interest risk, the difference between the interest rate sensitive assets and liabilities is analyzed and calculated in a certain condition. In the scope of fund management, sensitivity analysis is performed when the interest risk of interest sensitive assets in the portfolio is measured.

As of 30 June 2019, there are no Defense Industry Support Fund (SSDF) loans.

As of 30 June 2019, the loan balance of USD 234 Million, has been used from Türk Eximbank. The interest rate of the loans is fixed for 240 and 360 days. Since the Company does not use floating rate loans, interest risk is considered to be low.

iii. Liquidity Risk and Management Policy

Liquidity Risk comprises the risks when the matured liabilities cannot be fulfilled, when the increase in assets cannot be funded and the risks which arise due to the transaction realized in non-liquid markets.

Liquidity risk is managed by considering short term liabilities, assets with high liquidity, anticipated cash flows and balance sheet maturity ladder. Through this scope, sufficient level of cash and assets which may be convertible to cash is maintained, attention is paid that the Company finances its activities without using any loans and the resources of funding are varied by keeping the commercial bank credit limits ready for any cash requirement.

As of 30 June 2019, 25% of the short-term and long-term liabilities comprise of advance payments received therefore as there is no discrepancy in maturity dates, therefore liquidity risk is considered to be low.

iv. Credit Risk and Management Policy

The substantial part of the Company's current credit balance comprises of the performance guarantees and advance payment guarantees (letter of guarantees) granted to the customers in the scope of the contracts and which are showed off-balance sheet. Within this scope, in the context of the management of the credit limits in the bank, periodically risk counterparts are followed and transactions are carried out in order to deduct the letters of guarantees for the completed contracts without delay.

v. Capital Risk Management

Through the capital management of the Company, enabling a debt-equity balance that would minimize the financial risks and costs are taken care of. The objective of the Company is to guarantee a consistent growth by the means of the funds gained through its activities while providing its shareholders a regular dividend income.

6. Financial Information of the Company

The forecasts under the normal conditions regarding the Group's consolidated financial results for the 2019 year are presented below;

Financial Targets 2019	Financial Targets 2019 (Ratio/Amount)
